Sisters Of The Earth Womens Prose And Poetry About The Earth:

Sisters of the Earth Lorraine Anderson, 2003-12-09 *Sisters of the Earth* is a stirring collection of women's writing on nature: Nature as healer, Nature as delight, Nature as mother and sister, Nature as victim, Nature as companion and reminder of what is wild in us all. Here among more than a hundred poets and prose writers are Diane Ackerman on the opium of sunsets, Ursula K. Le Guin envisioning an alternative world in which human beings are not estranged from their planet, and Julia Butterfly Hill on weathering a fierce storm in the redwood tree where she lived for more than two years. Here too are poems, essays, stories, and journal entries by Emily Dickinson, Alice Walker, Terry Tempest Williams, Willa Cather, Gretel Erlich, Adrienne Rich, and others, each offering a vivid eloquent response to the natural world. This second edition of *Sisters of the Earth* is fully revised and updated with a new preface and nearly fifty new pieces, including new contributions by Louise Erdrich, Pam Houston, Zora Neale Hurston, Starhawk, Joy Williams, Kathleen Norris, Rita Dove, and Barbara Kingsolver.

Beyond Nature's Housekeepers Nancy C. Unger, 2012-10-05 This book highlights the unique and complex role women have played in the shaping of the American environment from pre-Columbian Native Americans to present-day environmental justice activists.

Greening the College Curriculum Jonathan Collett, Stephen Karakashian, 2013-04-10 *Greening the College Curriculum* provides the tools college and university faculty need to meet personal and institutional goals for integrating environmental issues into the curriculum. Leading educators from a wide range of fields including anthropology, biology, economics, geography, history, literature, journalism, philosophy, political science, and religion describe their experience introducing environmental issues into their teaching. The book provides a rationale for including material on the environment in the teaching of the basic concepts of each discipline, guidelines for constructing a unit or a full course at the introductory level that makes use of environmental subjects, sample plans for upper-level courses, a compendium of annotated resources, both print and nonprint. Contributors to the volume include David Orr, David G. Campbell, Lisa Naughton, Emily Young, John Opie, Holmes Rolston III, Michael E. Kraft, Steven Rockefeller, and others.

Literature and the Environment George Hart, Scott Slovic, 2004-07-30 The phrase "literature and environment" only achieved popularity in recent decades, yet writers dating back to the explorers of the 1500s and later, such as 19th-century Romanticists as Thoreau, have long been addressing environmental issues through literary expression. This volume introduces students and educators to the field by tracing the evolution of environmental writing in the United States. Chapters written by distinguished scholars offer new perspectives on important environmental issues, guiding readers through 11 carefully selected literary works. Each chapter provides brief biographical information on the author, discussions of the work's structural, thematic, and stylistic components, and insights into the historical context that relates the work to relevant environmental issues. Each chapter concludes with information on works cited. The analyzed works cover a wide spectrum of literature and span nearly 100 years. Included are early writings such as Mary Austin's 1903 *The Land of Little Rain* and famous groundbreaking works such as Rachel Carson's *Silent Spring*.

1962 and Gary Snyder's *Turtle Island* 1974 Also included are frequently assigned works of special interest to students such as *The Monkey Wrench Gang* 1975 *The Earthsea Trilogy* 1977 and *Ceremony* 1977 A list of selected further suggested readings completes the volume Students of literature as well as educators looking for new ways to present social issues will find many ideas and much inspiration in this volume

Lane, 1998 In the tradition of Kathleen Norris Terry Tempest Williams and Thomas Merton The Solace of Fierce Landscapes explores the impulse that has drawn seekers into the wilderness for centuries and offers eloquent testimony to the healing power of mountain silence and desert indifference Interweaving a memoir of his mother s long struggle with Alzheimer s and cancer meditations on his own wilderness experience and illuminating commentary on the Christian via negativa a mystical tradition that seeks God in the silence beyond language Lane rejects the easy affirmations of pop spirituality for the harsher but more profound truths that

wilderness can teach us There is an unaccountable solace that fierce landscapes offer to the soul They heal as well as mirror the brokenness we find within It is this apparent paradox that lies at the heart of this remarkable book that inhuman landscapes should be the source of spiritual comfort Lane shows that the very indifference of the wilderness can release us from the demands of the endlessly anxious ego teach us to ignore the inessential in our own lives and enable us to transcend the false self that is ever obsessed with managing impressions Drawing upon the wisdom of St John of the Cross Meister Eckhardt Simone Weil Edward Abbey and many other Christian and non Christian writers Lane also demonstrates how those of us cut off from the wilderness might make some desert in our lives Written with vivid intelligence narrative ease and a gracefulness that is itself a comfort *The Solace of Fierce Landscapes* gives us not only a description but a performance of an ancient and increasingly relevant spiritual tradition
