Basso,1996-08-01 Winner of the 2001 J I Staley Prize from the School of American Research and the 1996 Western States Book Award for Creative Nonfiction Anthropological study of Apache concepts of geographical places and place names This remarkable book introduces us to four unforgettable Apache people each of whom offers a different take on the significance of places in their culture Apache conceptions of wisdom manners and morals and of their own history are inextricably intertwined with place and by allowing us to overhear his conversations with Apaches on these subjects Basso expands our awareness of what place can mean to people Most of us use the term sense of place often and rather carelessly when we think of nature or home or

literature Our senses of place however come not only from our individual experiences but also from our cultures Wisdom Sits in Places the first sustained study of places and place names by an anthropologist explores place places and what they mean to a particular group of people the Western Apache in Arizona For more than thirty years Keith Basso has been doing fieldwork among the Western Apache and now he shares with us what he has learned of Apache place names where they come from and what they mean to Apaches This is indeed a brilliant exposition of landscape and language in the world of the Western Apache But it is more than that Keith Basso gives us to understand something about the sacred and indivisible nature of words and place And this is a universal equation a balance in the universe Place may be the first of all concepts it may be the oldest of all words N Scott Momaday In Wisdom Sits in Places Keith Basso lifts a veil on the most elemental poetry of human experience which is the naming of the world In so doing he invests his scholarship with that rarest of scholarly qualities a sense of spiritual exploration Through his clear eyes we glimpse the spirit of a remarkable people and their land and when we look away we see our own world afresh William deBuys A very exciting book authoritative fully informed extremely thoughtful and also engagingly written and a joy to read Guiding us vividly among the landscapes and related story tellings of the Western Apache Basso explores in a highly readable way the role of language in the complex but compelling theme of a people s attachment to place An important book by an eminent scholar Alvin M Josephy Jr

Linguistic Ecology Peter Mühlhäusler, 2002-11-01 In this book the author examines the transformation of the Pacific language region under the impact of colonization westernization and modernization By focusing on the linguistic and socio historical changes of the past 200 years it aims to bring a new dimension to the study of Pacific linguistics which up until now has been dominated by questions of historical reconstruction and language typology In contrast to the traditional portrayal of linguistic change as a natural process the author focuses on the cultural and historical forces which drive language change Using the metaphor of language ecology to explain and describe the complex interplay between languages speakers and social practice the author looks at how language ecologies have functioned in the past to sustain language diversity and at what happens when those ecologies are disrupted Whilst most of the examples used in the book are taken from the Pacific and Australian region the insights derived from this area are shown to have global applications The text should be useful for linguists and all those interested in the large scale loss of human language *A Touch More Rare* Nina Levine, David Lee Miller, 2009-08-25 Harry Berger Jr has long been one of our most revered and respected literary and cultural critics Since the late nineties a stream of remarkable and innovative publications have shown how very broad his interests are moving from Shakespeare to baroque painting to Plato to theories of early culture In this volume a distinguished group of scholars gathers to celebrate the work of Harry Berger Jr To celebrate in Berger s words is to visit something either in great numbers or else frequently to go away and come back go away and come back go away and come back Celebrating is what you do the second or third time around but not the first To celebrate is to revisit To revisit is to revise Celebration is the eureka of revision Not

only former students but distinguished colleagues and scholars come together in these pages to discover Berger's eureka's to revisit the rigor and originality of his criticism and occasionally to revise its conclusions all through the joy of strenuous engagement. Nineteen essays on Berger's Shakespeare his Spenser his Plato and his Rembrandt on his theories of interpretation and cultural change and on the ethos of his critical and pedagogical styles open new approaches to the astonishing ongoing body of work authored by Berger. An introduction by the editors and an afterword by Berger himself place this festival of interpretation in the context of Berger's intellectual development and the reception of his work from the mid twentieth century into the first decade of the twenty first.

Discourses of Post-bureaucratic Organization Rick Iedema, 2003. Here discourse encompasses not only the multi modal resources that people mobilize in organizational interaction but also the practices and transformative dynamics afforded by those resources. The organizational changes highlighted in the book revolve around three dimensions of work that are increasingly coming to the fore: participation, boundary spanning and knowledging.

On the Pragmatics of Social Interaction Jürgen Habermas, 2014-12-08. The core of this book is a set of five lectures delivered by Habermas at Princeton in 1971 under the title *Reflections on the Linguistic Foundation of Sociology*. These lectures offer a preliminary view of what would become *The Theory of Communicative Action* and they form an excellent introduction to Habermas's ideas about communication and society. They lay out the general parameters of Habermas's project in an accessible way and situate his work in relation to other theories of society, particularly those of Edmund Husserl, Wilfrid Sellars and Ludwig Wittgenstein. Two additional essays elaborating the themes of the lectures are also included in this volume. *Intentions, Conventions and Linguistic Interactions* is an essay in the philosophy of action that focuses on the validity of social norms and examines the conceptual connections between rules, conventions, norm governed action and intentionality. *Reflections on Communicative Pathology* addresses the question of deviant processes of socialization and contains an analysis of the formal conditions of systematically distorted communication. This book was designed as a companion to *On the Pragmatics of Communication* 1998 which took pieces from Habermas's later work to create a systematic introduction to his theory of formal pragmatics.

Cscl Timothy Koschmann, 2012-10-12. This book about a newly emerging area of research in instructional technology has as its title the acronym CSCL. Initially CSCL was chosen as an acronym for Computer Supported Collaborative Learning. However, some would argue that collaborative is often not a descriptive term for what learners do in instructional settings; further, as the field develops, the technology used to support collaboration may not always involve computers, at least not in the direct ways they have been used to support instruction in the past. To avoid getting bogged down in this terminological debate, this book uses CSCL as a designation in its own right, leaving open to interpretation precisely what words it stands for. The authors talk a great deal about the theory underlying their work. In part, this is because that is what they were asked to do, but it is also an indication of the state of the field. In an established paradigm in which the theories and methods are well agreed upon, such discussion is less central. CSCL, however,

has not yet reached the stage of normal science There is much to be worked out yet This book is offered with the hope that it will help to define a direction for future work in this field The chapters appear in alphabetical order except for the introductory chapter and the afterword not for lack of a better way to organize the chapters but rather because the organizational possibilities are too numerous and this order does not privilege one over another By not imposing a topical organizing structure on this collection it is hoped that readers will feel freer to explore the chapters in a way that best suits their needs
