Six Early Stories Sun And Moon Classics:

Six Early Stories Thomas Mann, 1997 When they think of the stories of the great German writer Thomas Mann most American readers will recall *Stories of Three Decades* translated in 1936 however that edition purposely excluded several early tales of Mann which the translator found tentative and awkward efforts As noted translator and editor of this volume Burton Pike notes however Times and interests change in 1936 Thomas Mann in exile from Nazi Germany was celebrated as a leading spokesman for the threatened humanistic values of Western Civilization His early development seemed unimportant within that context but such a judgment now seems arbitrary and wrong Indeed the six stories of this volume are all quite wonderful examples of this genre and even more revelatory with regard to Mann's themes and styles Experimenting with a complex multi layered narrative Mann explored new approaches to the psychologies of his characters with a strong fresh voice of a major talent These early stories ably translated by Peter Constantine and edited by Burton Pike are well worth reading They are also a welcome addition to the body of Mann's work in English But they are something more They remind us of what has been lost in the dissolution and passing of modernism The boldness daring and risk taking in both formal technical matters and in explicit thematic explorations remain as admirable today as they were a century ago Steven Marcus New York Times Book Review *Smoke, and Other Early Stories* Djuna Barnes, 1987 **French Classics -**

Thomas Mann in English David Horton, 2013-04-11. Thomas Mann owes his place in world literature to the dissemination of his works through translation. Indeed, it was the monumental

success of the original English translations that earned him the title of the greatest living man of letters during his years in American exile 1938 52 This book provides the first systematic exploration of the English versions illustrating the vicissitudes of literary translation through a principled discussion of a major author The study illuminates the contexts in which the translations were produced before exploring the transformations Mann's work has undergone in the process of transfer An exemplary analysis of selected textual dimensions demonstrates the multiplicity of factors which impinge upon literary translation leading far beyond the traditional preoccupation with issues of equivalence Thomas Mann in English thus fills a gap both in translation studies where Thomas Mann serves as a constant but ill defined point of reference and in literary studies which has focused increasingly on the author's wider reception

Radical Shadows Bradford Morrow, Peter Constantine, 2014-01-21 Little known literary works by Truman Capote Vladimir Nabokov and more An extraordinary collection of inexplicably forgotten treasures New York magazine Radical Shadows collects lost forgotten suppressed rare or unknown works by major literary writers from the late nineteenth century forward From previously unpublished work by Djuna Barnes and Truman Capote his earliest known story to writing by Chekhov Dostoevsky Kawabata Musil and other world class authors the issue is a celebration both of the art of translation and of the breadth and depth of the many revelatory discoveries that can still be found in the historical literary archive

The First Islamic Classic in Chinese Sachiko Murata, 2017-03-27. A translation of Wang Daiyu's Real Commentary on the True Teaching, the first and most influential work written in the Chinese language on Islam. Published in 1642, Wang Daiyu's Real Commentary on the True Teaching was the first significant presentation of Islam in the Chinese language by a Muslim scholar. It set the standard for the expression of Islamic theology, Sufism, and ethics in Chinese and became the literary foundation of a school of thought that has been called Muslim Confucianism. In contrast to Muslim scholars writing in every other language, Wang avoided Arabic words, opting instead to reconfigure the religion in terms of Chinese concepts and categories. Employing the terminology of Neo-Confucian philosophy, his overview of Islam is thus both congenial to the mainstream Islamic tradition and reaffirms Confucian teachings about the human duty to establish harmony between heaven and earth. This book will appeal to those curious about the manner in which Islam has flourished in China over the past thousand years, as well as those interested in dialogue among religions and the significance of religious diversity.
