Nance, Desmond Wenger, 2017-09-20 First published in 2003 *Terrorist Recognition Handbook A Practitioner's Manual for Predicting and Identifying Terrorist Activities* remains one of the only books available to provide detailed information on terrorist methodology revealing terrorist motivation organizational structure planning financing and operational tactics to carry out attacks *Visa Waiver Program and the Screening of Potential Terrorists* United States. Congress. House. Committee on International Relations. Subcommittee on International Terrorism, Nonproliferation, and Human Rights, 2004 Arabs and Muslims in the Media Evelyn Alsultany, 2012-08-20 After 9/11 there was an increase in both the incidence of hate crimes and government policies that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U.S. media *Arabs and Muslims in the Media* examines this paradox and investigates the increase of sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as *West Wing* *The Practice* *24* *Threat Matrix* *The Agency* *Navy NCIS* and *Sleeper Cell* news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality *Jihadism, Online Discourses and Representations* Rüdiger Lohlker, 2013 Jihadi online media try to mobilize recruit and disseminate the

messages of jihadi subcultures Understanding the mechanisms and structures of the products of these online media is essential for understanding jihadism in general Original research into visual representations of jihadi media outlets the subtleties of jihadi videos the specific ways jihadis use Islamic religious language into jihadi poetry and the ways jihadis stage their concepts in videos of kangaroo trials is presented in this volume Jihadis as part of the imagery of global media production is another aspect of representations of jihadism described in one of the contributions
