Fighting Sleep Franny Nudelman,2019-10-08 On April 21 1971 hundreds of Vietnam veterans fell asleep on the National Mall wondering whether they would be arrested by daybreak Veterans had fought the courts for the right to sleep in public while demonstrating against the war When the Supreme Court denied their petition they decided to break the law and turned sleep into a form of direct action During and after the Second World War military psychiatrists used sleep therapies to treat an epidemic of combat fatigue Inducing deep and twilight sleep in clinical settings they studied the effects of war violence on the mind and developed the techniques of brainwashing that would weaponize both memory and sleep In the Vietnam War era radical veterans reclaimed the authority to interpret their own traumatic symptoms nightmares flashbacks insomnia and pioneered new methods of protest In *Fighting Sleep* Franny Nudelman recounts the struggle over sleep in the postwar world revealing that sleep was instrumental to the development of military science professional psychiatry and antiwar activism Traversing the fields of military and mainstream psychiatry popular and institutional film documentary sound technology brain warfare and postwar social movements she demonstrates that sleep far from being passive empty or null is a site of contention and a source of political agency

At the Edges of Sleep Jean Ma,2022-10-04 A free open access ebook is available upon publication Learn more at www.luminosoa.org Many recent works of contemporary art performance and film turn a spotlight on sleep wresting it from the hidden private spaces to which it is commonly relegated *At the Edges of Sleep* considers sleep in film and moving image art as both a subject matter to explore onscreen and a state to induce in the audience Far from negating action or meaning sleep extends into new territories as it designates ways of existing in the world in relation to people places and the past Defined positively sleep also expands our understanding of reception beyond the binary of concentration and distraction These possibilities converge in the work of Thai filmmaker and artist Apichatpong Weerasethakul who has explored the subject of sleep systematically throughout his career In examining Apichatpong's work Jean Ma brings together an array of interlocutors from Freud to Proust George M Li to Tsai Ming-liang Weegee to Warhol to rethink moving images through the lens of sleep Ma exposes an affinity between cinema spectatorship and sleep that dates to the earliest years of filmmaking and sheds light upon the shifting cultural valences of sleep in the present moment

The Surgeon's Battle Lindsay Rae Smith Privette,2025-09-02 Between May 1 and May 22 1863 Union soldiers marched nearly 200 miles through the hot humid countryside to assault and capture the fortified city of Vicksburg Mississippi Upon its arrival the army laid siege to the city for a grueling forty seven days Disease and combat casualties threatened to undermine the army's fighting strength leaving medical officers to grapple with the battlefield conditions necessary to sustain soldiers' bodies Medical innovations were vital to the Union victory When

Vicksburg fell on July 4 triumph would have been fleeting if not for the US Army Medical Department and its personnel By centering soldiers health and medical care in the Union army s fight to take Vicksburg Lindsay Rae Smith Privette offers a fresh perspective on the environmental threats logistical challenges and interpersonal conflicts that shaped the campaign and siege In doing so Privette shines new light on the development of the army s medical systems as officers learned to adapt to their circumstances and prove themselves responsible stewards of soldiers bodies

Anne Davis,2018-06-05 **The Shape of Motion** Jordan Schonig,2022 In The Shape of Motion Cinema and the Aesthetics of Movement author Jordan Schonig provides a new way of theorizing cinematic motion by examining cinema s motion forms structures patterns or shapes of movement unique to the moving image From the wild and unpredictable motion of flickering leaves and swirling dust that captivated early spectators to the pulsing abstractions that emerge from rapid lateral tracking shots to the bleeding pixel formations caused by the glitches of digital video compression each motion form opens up the aesthetics of movement to film theoretical inquiry By pairing close analyses of onscreen movement in narrative and experimental films with concepts from Maurice Merleau Ponty Henri Bergson and Immanuel Kant Schonig rethinks longstanding assumptions within film studies such as indexical accounts of photographic images and analogies between the camera and the human eye Arguing against the intuition that cinema reproduces our natural perception of motion The Shape of Motion shows how cinema s motion forms do not merely transpose the movements of the world in front of the camera they transform them **California Legion Monthly** ,1920 *The Image in Early Cinema* Scott Curtis,Philippe Gauthier,Tom

Gunning,Joshua Yumibe,2018-03-22 In The Image in Early Cinema the contributors examine intersections between early cinematic form technology theory practice and broader modes of visual culture They argue that early cinema emerged within a visual culture composed of a variety of traditions in art science education and image making Even as methods of motion picture production and distribution materialized they drew from and challenged practices and conventions in other mediums This rich visual culture produced a complicated overlapping network of image making traditions innovations and borrowing among painting tableaux vivants photography and other pictorial and projection practices Using a variety of concepts and theories the contributors explore these crisscrossing traditions and work against an essentialist notion of media to conceptualize the dynamic interrelationship between images and their context
