Maya Calendar Origins Prudence M. Rice, 2009-02-17 In Maya Political Science Time Astronomy and the Cosmos Prudence M Rice proposed a new model of Maya political organization in which geopolitical seats of power rotated according to a 256 year calendar cycle known as the May This fundamental connection between timekeeping and Maya political organization sparked Rice's interest in the origins of the two major calendars used by the ancient lowland Maya one 260 days long and the other having 365 days In Maya Calendar Origins she presents a provocative new thesis about the origins and development of the calendrical system Integrating data from anthropology archaeology art history astronomy ethnohistory myth and linguistics Rice argues that the Maya calendars developed about a millennium earlier than commonly thought around 1200 BC as an outgrowth of observations of the natural phenomena that scheduled the movements of late Archaic hunter gatherer collectors throughout what became Mesoamerica She asserts that an understanding of the cycles of weather and celestial movements became the basis of power for early rulers who could thereby claim control over supernatural cosmic forces Rice shows how time became materialized transformed into status objects such as monuments that encoded calendrical or temporal concerns as well as politicized becoming the foundation for societal order political legitimization and wealth Rice's research also sheds new light on the origins of the Popol Vuh which Rice believes encodes the history of the development of the Mesoamerican calendars She also explores the connections between the Maya and early Olmec and Izapán cultures in the Isthmian region who shared with the Maya the cosmovision and ideology incorporated into the calendrical systems

The Protestant International and the Huguenot Migration to Virginia David E. Lambert,2010 In 1700 King William III assigned Charles de Saily to accompany Huguenot refugees to Manakin Town on the Virginia frontier The existing explanation for why this migration was necessary is overly simplistic and seriously conflated Based largely on English language sources with an English Atlantic focus it contends that King William III grateful to the French Protestant refugees who helped him invade England during the Glorious Revolution 1688 and win victory in Ireland 1691 rewarded these refugees by granting them 10 000 acres in Virginia on which to settle Using French language sources and a wider more European focus than existing interpretations this book offers an alternative explanation It delineates a Huguenot refugee resettlement network within a Protestant International highlighting the patronage of both King William himself and his valued Huguenot associate Henri de Ruvigny Lord Galway By 1700 King William was politically battered by the interwoven pressures of an English reaction against his high profile foreign favorites Galway among them and the Irish land grants he had awarded to close colleagues to Galway and others This book asserts that King William and Lord Galway sponsored the Manakin Town migration to provide an alternate location for Huguenot military refugees in the worst case scenario that they might lose their Irish refuge
