Religion and Politics under the Early 'Abbāsids Muhammad Qasim Zaman, 2021-12-06 The main concern of this book is the religious policies of the early Abbāsid caliphs It focuses on the religious trends which went into the making of Sunnī Islam and traces the emergence of the nascent Sunnī elite in relation to the Abbāsids Various aspects of the caliphs' evolving relationship with the religious scholars are studied and the nature of caliphal patronage and its impact on the scholars and ultimately on the evolution of early Sunnism is explored What emerges is a picture of close collaboration between the caliphs and the ulamā with the caliphs playing an active and multifaceted role in religious life This book challenges the prevailing interpretations of the separation of religion and politics in early Islam and offers new insights into the social and religious history of Islam's formative centuries

Beyond Sectarianism Tehseen Thaver, 2024-05-14 In this groundbreaking book Tehseen Thaver offers a fundamental reevaluation of how one should think about the relationship between the Qur'ān, Shi'ism and religious identity Beyond Sectarianism focuses on the literary Arabic Qur'ān exegesis of the highly influential yet less studied poet-historian and exegete al-Sharīf al-Rāḍī d. 1015 Al-Rāḍī's fascinating interpretations sought to resolve Qur'ānic ambiguities or *mutashabihāt* Through a philologically layered and historically attuned analysis Thaver argues that al-Rāḍī's efforts at resolving Qur'ānic ambiguities were interlocked with the project of the canonization of the Arabic language Although he was marked as a Shi'ī scholar the interpretive and political horizons that informed al-Rāḍī's scholarly endeavors could not be reduced to predetermined templates of sectarian identity Rather Thaver argues al-Rāḍī was an active participant and beneficiary of critical intellectual currents and debates that animated the wider Muslim humanities during his life especially on questions of language, poetry and theology Thaver thus leads her readers to reconsider their assumptions about the interaction of sectarian identity and scriptural interpretation in the study of Islam and religion Though centered on the context of late tenth and eleventh century Baghdad under the Buyid dynasty Beyond Sectarianism raises and addresses crucial questions of religious thought and identity with major ramifications for how we imagine the narrative of Islam and the place of sectarianism in it today
