compelling and complex story **Rebel Imaginaries** Elizabeth E. Sine, 2020-11-23 During the Great Depression California became a wellspring for some of the era's most inventive and imaginative political movements. In response to the global catastrophe, the multiracial laboring populations who formed the basis of California's economy gave rise to an oppositional culture that challenged the modes of racialism, nationalism, and rationalism that had guided modernization during preceding decades. In *Rebel Imaginaries*, Elizabeth E. Sine tells the story of that oppositional culture's emergence, revealing how aggrieved Californians asserted political visions that embraced difference, fostered a sense of shared vulnerability, and underscored the interconnectedness and interdependence of global struggles for human dignity. From the Imperial Valley's agricultural fields to Hollywood, seemingly disparate communities of African American, Native American, Mexican, Filipino, Asian, and White working-class people were linked by their myriad struggles against Depression-era capitalism and patterns of inequality and marginalization. In tracing the diverse coalition of those involved in labor strikes, citizenship and immigration reform, and articulating and imagining freedom through artistic practice, Sine demonstrates that the era's social movements were far more heterogeneous, multivalent, and contested than previously understood. *Camps, Billets, Cooking, Ceremonial, Sanitation, Organization, Routine, Guard Duties, Inspection, Bivouacs* E. John Solano, 1916 *The American Kitchen Magazine*, 1902 **Everyday Housekeeping**, 1896 *Plenty and Want* Professor John Burnett, John Burnett, 2013-06-17 What did Queen Victoria have for dinner? And how did this compare with the meals of the poor in the nineteenth century? This classic account of English food habits since the industrial revolution answers these questions and more. **Modern English Society** Judith Ryder, Harold Silver, 2024-01-01 First published in 1970, *Modern English Society* is primarily concerned with the period since the Great Exhibition of 1851. Judith Ryder and Harold Silver begin by surveying the consequences, good and ill, of industrialization and go on to explore the changing pattern of social relationships to which it gave rise. They discuss such topics as the growth of towns and of large-scale administration, the development of welfare services, the emergence of mass politics, the mass media, and mass production. They show how social attitudes and the interpretation of historical facts are colored by our ideological views. In the second half of the book, they examine the structure and functioning of contemporary social institutions: the family, education, the economic and political systems, and assess their implications for the individual, for specific social groups, and for society as a whole. This book will be of interest to students of history and sociology. **Four Meals For Fourpence** Grace Foakes, 2011-05-12 I was born in a tenement flat in the East End of London in the year in which Queen Victoria died. *FOUR MEALS FOR FOURPENCE* is Grace Foakes's memories of her girlhood in Wapping in the early 1900s. With a child's uncluttered eye, she describes the small details: shopping in the market, men waiting for work at the dock gates, the rituals of washday, the sights, sounds, and smells of the old East End of London. She also describes the fear of illness, of unemployment, of the workhouse that hung over her family and thousands like them, and her determination that her own children would never know the kind of poverty she had experienced.
