Targeting Grammar Grades 5-6 Teacher

Created Resources, Inc, 2009-06 The first part of each book covers specific parts of speech such as nouns adjectives pronouns verbs and adverbs as well as the structure of sentences The last part provides games for a bit of fun task cards for extra practice and word banks to save teachers some time The overall goal is to help students learn enough about grammar to communicate easily and effectively to evaluate the myriad of messages that surround them and to function successfully in business and society *Changing Teaching, Changing Times* Jonathan Clark, Cedric Linder, 2006-01-01 This is the story of a science teacher and her work in an over crowded and under resourced township secondary school in contemporary South Africa While set firmly in the present it is also a journey into the past shedding fresh light on how the legacy of apartheid education continues to have a major influence on teaching and learning in South Africa The book has a compelling story line with extensively referenced notes at the end of each chapter It is intended for a wide audience which includes general readers policy makers teacher educators researchers and most importantly practitioners in the field For while it reminds us of the powerful constraining role that both context and students play in mediating a teacher's practice it also attests to the power of individual agency As such it is a celebration of the actions of an ordinary teacher whose willingness to leave the well worn paths of familiar practice stands as a beacon of possibility for contexts which seem so often to be devoid of hope
