Moore, 2017-10-03 This thoroughly revised second edition of Allan Moore's ground breaking book features new sections on melody Britpop authenticity intertextuality and an extended discussion of texture Rock's primary text its sounds is the focus of attention here Allan Moore argues for the development of a musicology particular to rock within the context of the background to the genres the beat and rhythm and blues styles of the early 1960s progressive rock and subsequent styles He also explores the fundamental issue of rock as a medium for self expression and the relationship of this to changing musical styles Rock The Primary Text remains innovative in its exploration of an aesthetics of rock Song
