The Book of Enlightened Masters Andrew Rawlinson, 1997 This is the definitive and complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic in its scope The Book of Enlightened Masters includes biographical essays on 140 spiritual teachers giving their life stories and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are many such teachers with millions of followers Starting from scratch the West has produced its own spiritual teachers in traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have appeared who belong to no single

identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson callsspiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others

Teachers and the Epistemology of History Henrik Åström Elmersjö, Paul Zanzanian, 2024-06-25 This edited book explores conceptual as well as empirical approaches to epistemic beliefs that teachers of history might hold In many parts of the world history teachers are tasked with both upholding historical national myths and at the same time giving students the tools needed to deconstruct history and think critically This ambiguity embedded in the combination of reconstruction and deconstruction is a difficult landscape for teachers to navigate The chapters of this book therefore explore how teachers reason regarding the epistemic nature of history and how this impacts their teaching interpretation of curricula and relationship to their students Contributions consider the implications for prospective history teachers and in service training challenges to the field and point to ways forward The book will be of interest to academics and students of history education as well as practising teachers and museum curators This is an open access book

Jane Austen and the Buddha Kathryn Duncan, 2021-11-15 Jane Austen wrote six books that were published at the beginning of the 19th century all with happy endings Yet below the courtship novels sparkling wit and dance scenes flows an undercurrent of suffering Austen had a deep understanding of the sources and cure for suffering that shares much in common with Buddhism Though not intentionally writing through the lens of Buddhism Austen intuitively understood the Buddha s most fundamental teaching of the Four Noble Truths that life contains

suffering that we can discover the causes of suffering and that we can stop suffering by following the Eightfold Path described by the Buddha In this book Austen fans or those who wish for a deeper understanding of how stories can alleviate suffering will discover a combination of psychology and Buddhism alongside accessible close readings of Austen This unique approach offers insight into Austen s enduring popularity and lessons we might apply to our own lives to find happiness just like Austen s heroines Drama Teachers' Association of California. Emptiness and Joyful Freedom Greg Goode,Tomas Sander,2013-08-01 The pinnacle of Buddhism s understanding of reality is the emptiness of all things Exploring reality towards the realization of emptiness is shockingly radical It uncovers an exhilarating freedom with nowhere to stand while engendering a loving joy that engages the world This path breaking book employs the emptiness teachings in a fresh innovative way Goode and Sander don t rely solely on historical models and meditations Instead they have created over eighty original meditations on the emptiness of the self issues in everyday life and spiritual paths These meditations are guided both by Buddhist insights and cutting edge Western tools of inquiry such as positive psychology neuroscience linguistic philosophy deconstruction and scepticism The result is a set of liberating and usable tools for Buddhists and non Buddhists alike

The Teacher, Literature and the Mediterranean Simone Galea,Adrian Grima,2014-11-26 At a time when the Mediterranean has rediscovered its own vitality seven academics from the fields of education and literature look at how fictions set in the region narrate the role of the teacher from the point of view of the students and from that of the teachers themselves While an increasingly technocratic approach to the performance of teachers focuses on competences these often highly subjective narratives tell stories of practitioners who refuse to fit into the mould imposed on them by patriarchy or the educational institutions The writers dealt with in this volume are aware that teachers cannot be solely defined in terms of what they are expected to do within schools and classrooms This reductively conceives them as simply needing the skills to teach without having the ability to contextualise their teaching within wider historical social and cultural realities With its migration flows and intricate web of social and cultural politics the Mediterranean of the 21st century is an ideal space for reflections on the role of the teacher in an ever changing society
