Corbett, 1972 **France in Black Africa**, *The French Presence in Black Africa, by Edward M. Corbett* Edward M. Corbett, 1972 **The End of Empire in French West Africa** Tony Chafer, 2002-06-01 In an effort to restore its world power status after the humiliation of defeat and occupation France was eager to maintain its overseas empire at the end of the Second World War Yet just fifteen years later France had decolonized and by 1960 only a few small island territories remained under French control The process of decolonization in Indochina and Algeria has been widely studied but much less has been written about decolonization in France's largest colony French West Africa Here the French approach was regarded as exemplary that is a smooth transition successfully managed by well intentioned French politicians and enlightened African leaders Overturning this received wisdom Chafer argues that the rapid unfurling of events after the Second World War was a complex piecemeal and unpredictable process resulting in a successful decolonization that was achieved largely by accident At independence the winners assumed the reins of political power while the losers were often repressed imprisoned or silenced This important book challenges the traditional dichotomy between imperial and colonial history and will be of interest to students of imperial and French history politics and international relations development and post colonial studies

The French Presence in the South Pacific, 1842-1940 Robert Aldrich, 1989-06-18 An examination of France's presence in the South Pacific after the takeover of Tahiti It places the South Pacific in the context of overall French expansion and current theories of colonialism and imperialism and evaluates the French impact on Oceania Britain, France and the Decolonization of Africa Andrew W.M. Smith, Chris Jeppesen, 2017-03-01 Looking at decolonization in the conditional tense this volume teases out the complex and uncertain ends of British and French empire in Africa during the period of late colonial shift after 1945 Rather than view decolonization as an inevitable process the contributors together explore the crucial historical moments in which change was negotiated compromises were made and debates were staged Three core themes guide the analysis development contingency and entanglement The chapters consider the ways in which decolonization was governed and moderated by concerns about development and profit A complementary focus on contingency allows deeper consideration of how colonial powers planned for colonial futures and how divergent voices greeted the end of empire Thinking about entanglements likewise stresses both the connections that existed between the British and French empires in Africa and those that endured beyond the formal transfer of power **Africa, Sub-Sahara** Harlan D. Robinson, 1974 **Africa** Army Library (U.S.), 1973 **The Leadership Challenge in Africa** John Mukum Mbaku, Joseph Takougang, 2004 This collection of essays written by an outstanding group of scholars makes a significant contribution to the debate on poverty alleviation in Cameroon the country's stalled transition to democratic governance identity and citizenship and the equitable allocation of resources The essays contain a refreshing rigorous and informative
