The French Revolution of 1870-1871 Roger Lawrence Williams,1969 **The French Revolution of 1870-1871**
Roger Lawrence Williams,1969 **The French Revolution of 1870-1871** R. L. Williams, **The French revolution of 1870-1871** Roger L. Williams,1969 **The French Revolution of 1870 - 1871 : A controversial episode in modern French history - the Paris Commune - and the revolutionary cycle of which it was a part** Roger Lawrence Williams,1969 **The French Revolution of 1870-1871** Roger Lawrence Williams,1969 *A Social History of France 1780-1914* Peter McPhee,2017-03-03 This volume provides a lively and authoritative synthesis of recent work on the social history of France and is now thoroughly updated to cover the long nineteenth century from 1789 1914 Peter McPhee offers both a readable narrative and a distinctive coherent argument about this remarkable century and explores key themes such as Peasant interaction with the environment The changing experience of work and leisure The nature of crime and protest Changing demographic patterns and family structures The religious practices of workers and peasants The ideology and internal repercussions of colonisation At the core of this social history is the exercise and experience of social relations of power not only because in these years there were four periods of protracted upheaval but also because the history of the workplace of relations between women and men adults and children is all about human interaction Stimulating and enjoyable to read this indispensable introduction to nineteenth century France will help readers to make sense of the often bewildering story of these years while giving them a better understanding of what it meant to be an inhabitant of France during that turbulent time **Civil War in Europe, 1905-1949** Stanley G. Payne,2011-09-19 This is the first account in any language of the civil wars in Europe during the era of the world wars from 1905 to 1949 It treats the initial confrontations in the decade before World War I the confusing concept of European civil war the impact of the world wars the relation between revolution and civil war and all the individual cases of civil war with special attention to Russia and Spain The civil wars of this era are compared and contrasted with earlier internal conflicts with particular attention to the factors that made this era a time of unusually violent domestic contests as well as those that brought it to an end The major political ideological and social influences are all treated with a special focus on violence against civilians *The Routledge Companion to Modern European History since 1763* Chris Cook,John Stevenson,2004-11-10 The Routledge Companion to Modern European History since 1763 is a compact and highly accessible work of reference covering the broad sweep of events from the last days of the ancient regime to the ending of the Cold War and from the reshaping of Eastern Europe to the radical expansion of the European Union in 2004 Within the broad coverage of this outstanding volume particular attention is given to subjects such as the era of the Enlightened Despots the Revolutionary and Napoleonic era in France and the revolutions of 1848 nationalism and imperialism and the retreat from Empire the First World War the rise of the European dictators the coming of the Second World War the Holocaust and the post war development of Europe the Cold War the Soviet Union and its break

up the protest and upheavals of the 1960s as well as social issues such as the rise of the welfare state and the changing place of women in society throughout the period With a fully comprehensive glossary a biographical section a thorough bibliography and informative maps this volume is the indispensable companion for all those who study modern European history

A History of European Socialism Albert S. Lindemann, 1983-01-01 This is a serious and accomplished synthesis Biographical vignettes enliven the presentation of ideas and references to studies of regional diversities give the narrative an uncommonly rich texture Lucid and illuminating It is the best book on the subject to put into the hands of our students Helmut Gruber International Labor and Working Class History A synthetic narrative by a young academic scholar who has independent ideas on an important subject This book is worth reading if for no other reason than its modest but nonpatronizing rehabilitation from generations of Marxist caricature of a host of deeply democratic European socialists James H Billington Washington Post Book World One asset of this book is its lack of the overbearing personal partisanship one finds in so many historical studies of socialism Lindeman incorporates some recent and inaccessible studies in social history written from the bottom up David D Arcy World View As a whole Lindemann offers a more balanced treatment of the ideas and the movement of socialism than found in many extant histories A must for all college and university libraries Choice A competent and fair minded study of a controversial subject It presents much factual material and judicious interpretation in lucid prose L S Stavrianos Los Angeles Times Book Review
