Internationalism in the Labour Movement 1830-1940 Holthoon, Marcel van der Linden, 2025-02-10 *Internationalism in the labour movement* Frits van Holthoon, Marcel van der Linden, 1988 **International Relations Theory and the End of the Cold War** Richard Ned Lebow, Thomas Risse-Kappen, 1995 This controversial set of essays evaluates and extends international relations theory in light of the revolutionary events of past years The contributors demonstrate how theoretical constructs did not anticipate Soviet foreign policies that led to the end of the Cold War **Patriotic Pacifism** Sandi E. Cooper, 1991-12-19 Despite the liberalized reconfiguration of civil society and political practice in nineteenth century Europe the right to make foreign policy devise alliances wage war and negotiate peace remained essentially an executive prerogative Citizen challenges to the exercise of this power grew slowly Drawn from the educated middle classes peace activists maintained that Europe was a single culture despite national animosities that Europe needed rational inter state relationships to avoid catastrophe and that internationalism was the logical outgrowth of the nation state not its subversion In this book Cooper explores the arguments of these patriotic pacifists with emphasis on the remarkable international peace movement that grew between 1889 and 1914 While the first World War revealed the limitations and dilemmas of patriotic pacifism the shape if not substance of many twentieth century international institutions was prefigured in nineteenth century continental pacifism *Imperial Germany and a World Without War* Roger Chickering, 2015-03-08 This book provides the first thorough examination of the peace movement in pre World War I Germany concentrating on the factors in German politics and society that account for the movement s weakness The author draws on a wide range of documents to survey the history organization and ideologies of the peace groups placing them in their social and political context Working through schools churches the press political parties and other opinion forming groups the German peace movement attempted systematically to promote the idea that the world s nations composed a harmonious community in which law was the proper means for resolving disputes Except for small pockets of support however the movement met only resistance resistance greater the author contends than elsewhere in the West Evaluating the reasons for hostility to the peace movement in Germany he concludes that dominant features of German political culture emphasized the inevitability of international conflict in the final analysis because Imperial Germany s ruling elites feared the domestic as well as the international implications of the movement s program Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly
