The Frontier In American History By Frederick Jackson Turner:

The Frontier in American History Frederick Jackson Turner, 1920 *The Frontier in American History* Frederick J. Turner, 2022-09-27 Reproduction of the original **An Analysis of Frederick Jackson Turner's The Significance of the Frontier in American History** Joanna Dee Das, Joseph Tendler, 2017-07-05 Frederick Jackson Turner's 1893 essay on the history of the United States remains one of the most famous and influential works in the American canon. That is a testament to Turner's powers of creative synthesis: in a few short pages he succeeded in redefining the way in which whole generations of Americans understood the manner in which their country was shaped and their own character moulded by the frontier experience. It is largely thanks to Turner's influence that the idea of America as the home of a sturdily independent people, one prepared ultimately to obtain justice for themselves if they could not find it elsewhere, was born. The impact of these ideas can still be felt today in many Americans' suspicion of big government in their attachment to guns, even in Star Trek's vision of space as the final frontier. Turner's thesis may now be criticised as limited in its exclusion of women and overstated in its focus on the western frontier. That it redefined an issue in a highly impactful way and that it did so exceptionally eloquently cannot be doubted.

Shaping the American Character: The Significance of the Frontier in American History Frederick Jackson Turner, 2012-01-10 More than a hundred years after it was first articulated, Frederick Jackson Turner's frontier thesis remains one of the key interpretations of American history. Turner argued that the European heritage of Americans was less important in understanding the country they had made than their own experience in settling a continent. It was the circumstances of life on the frontier, in fact, a succession of frontiers that moved inexorably westward, that were a determining influence on American character and institutions. Turner read this paper propounding his thesis at the meeting of the American Historical Association in Chicago, July 12, 1893, as part of the World's Columbian Exposition. It was timely; he suggested because the Census of 1890 had announced the closing of the frontier in the United States and thus the end of an important stage of American development.

The frontier in American history Frederick Jackson Turner, 1920-01-01 Rereading Frederick Jackson Turner Frederick Turner, John Mack Faragher, 1999-02-08 In 1893 a young Frederick Jackson Turner stood before the American Historical Association and delivered his famous frontier thesis. To a less than enthusiastic audience he argued that the existence of an area of free land, its continuous recession, and the advance of American settlement westward explain American development; that this frontier accounted for American democracy and character; and that the frontier had closed forever with uncertain consequences for the American future. Despite the indifference of Turner's first audience, his essay would soon prove to be the single most influential piece of writing on American history with extraordinary impact both in intellectual circles and in popular literature. Within a few years his views had become the dominant interpretation of the American past. A collection of his essays won the Pulitzer Prize, and for almost half a century Turner's thesis was the most familiar model taught in schools, extolled by politicians, and screened in

fictional form at local movie theaters each Saturday afternoon Now a hundred years after Turner's famous address award winning biographer John Mack Faragher collects and introduces the pioneer historian's ten most significant essays Remarkable for their truly modern sense that a debate about the past is simultaneously a debate about the present these essays remain stimulating reading both as a road map to the early twentieth century American mind and as a model of committed scholarship Faragher introduces us to Turner's work with a look at his role as a public intellectual and his effect on Americans understanding of their national character In the afterword Faragher turns to the recent heated debate over Turner's legacy Western history has reemerged in the news as historians argue over Turner's place in our current mind set In a world of dizzying intellectual change it may come as something of a surprise that historians have taken so long to overturn the interpretation of a century old conference paper But while some claim that Turner's vision of the American West as a great egalitarian land of opportunity was long ago dismissed others in the words of historian Donald Worster maintain that Turner still presides over western history like a Holy Ghost Against this backdrop Faragher looks at what the concept of the West means to us today and provides a reader's guide to the provocative new literature of the American frontier Rereading these essays in the fresh light of Faragher's analysis brings new appreciation for the richness of Turner's work and an understanding of contemporary historians admiration for Turner's commitment to the study of what it has meant to be American

The Frontier in American History (Annotated) Frederick Jackson Turner, 2020-01-30 Differentiated book It has a historical context with research of the time The Frontier thesis or Turner thesis is the argument advanced by historian Frederick Jackson Turner in 1893 that American democracy was formed by the American frontier He stressed the process the moving frontier line and the impact it had on pioneers going through the process He also stressed results especially that American democracy was the primary result along with egalitarianism a lack of interest in high culture and violence American democracy was born of no theorist's dream it was not carried in the Susan Constant to Virginia nor in the Mayflower to Plymouth It came out of the American forest and it gained new strength each time it touched a new frontier said Turner In the thesis the American frontier established liberty by releasing Americans from European mindsets and eroding old dysfunctional customs The frontier had no need for standing armies established churches aristocrats or nobles There was no landed gentry who controlled most of the land and charged heavy rents and fees Frontier land was practically free for the taking Turner first announced his thesis in a paper entitled *The Significance of the Frontier in American History* delivered to the American Historical Association in 1893 in Chicago He won wide acclaim among historians and intellectuals Turner elaborated on the theme in his advanced history lectures and in a series of essays published over the next 25 years published along with his initial paper as *The Frontier in American History*
