Peter Ustinov,1979 **The Frontiers of the Sea** Peter Ustinov (Sir),1966 **The Novel and the Sea** Margaret
Cohen,2021-06-08 For a century the history of the novel has been written in terms of nations and territories the English
novel the French novel the American novel But what if novels were viewed in terms of the seas that unite these different
lands Examining works across two centuries *The Novel and the Sea* recounts the novel s rise told from the perspective of the
ship s deck and the allure of the oceans in the modern cultural imagination Margaret Cohen moors the novel to overseas
exploration and work at sea framing its emergence as a transatlantic history steeped in the adventures and risks of the
maritime frontier Cohen explores how Robinson Crusoe competed with the best selling nautical literature of the time by
dramatizing remarkable conditions from the wonders of unknown lands to storms shipwrecks and pirates She considers
James Fenimore Cooper s refashioning of the adventure novel in postcolonial America and a change in literary poetics toward
new frontiers and to the maritime labor and technology of the nineteenth century Cohen shows how Jules Verne reworked
adventures at sea into science fiction how Melville Hugo and Conrad navigated the foggy waters of language and thought and
how detective and spy fiction built on sea fiction s problem solving devices She also discusses the transformation of the ocean
from a theater of skilled work to an environment of pristine nature and the sublime A significant literary history *The Novel
and the Sea* challenges readers to rethink their land locked assumptions about the novel **The Machine in Neptune's
Garden** Helen M. Rozwadowski,David K. Van Keuren,2004 **The Sea-shore** William Plane Pycraft,1920 **The Rob Roy
on the Jordan, Nile, Red Sea, and Gennesareth, &c** John MacGregor,1874 **Sea Frontiers** ,1993 *The Indian
Ocean* Michael N. Pearson,2003-09-02 In this stimulating and authoritative overview Michael Pearson reverses the
traditional angle of maritime history and looks from the sea to its shores its impact on the land through trade naval power
travel and scientific exploration This vast ocean both connecting and separating nations has shaped many countries cultures
and ideologies through the movement of goods people ideas and religions across the sea *The Indian Ocean* moves from a
discussion of physical elements its shape winds currents and boundaries to a history from pre Islamic times to the modern
period of European dominance Going far beyond pure maritime history this compelling survey is an invaluable addition to
political cultural and economic world history
