The Function of Literature David Margolies,1969 *Christopher Caudwell* Christopher Pawling,1989-11-10 Christopher Caudwell was only twenty nine when he was killed in action in February 1937 at the beginning of the Spanish Civil War Largely unknown at the time of his death his reputation has been established subsequently as one of the most original English cultural critics of the Twentieth century *Criticism and Literary Theory 1890 to the Present* Chris Baldick,2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearean criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world

Christopher Caudwell David Margolies,Linden Peach,1989 Christopher Caudwell Robert Sullivan,1987 **The Time Machine and the Domaine** Richard W. Bevis,2022-02-18 Why have so many cultures created what we call imaginative literature in the past and still do What prompts so many people to read literature And how are we to understand the economy that links these producers and consumers These and related questions plagued the author for a couple of decades before he began to set down the results of his research into the roles and functions that creative writing has had in various societies More and more the evidence seemed to point towards our feelings about the effects of time on our lives and our memories of special places that enchanted or changed us He illustrates his findings by examining a wide range of literary artifacts

The Return of Nature John Bellamy Foster,2021-06-01 Winner 2020 Isaac and Tamara Deutscher Memorial Prize A fascinating reinterpretation of the radical and socialist origins of ecology Twenty years ago John Bellamy Foster s Marx s Ecology Materialism and Nature introduced a new understanding of Karl Marx s revolutionary ecological materialism More than simply a study of Marx it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas Now with The Return of Nature Socialism and Ecology Foster continues this narrative In so doing he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today s unprecedented planetary emergencies The Return of Nature begins with the deaths of Darwin 1882 and Marx 1883 and moves on until the rise of the ecological age in the 1960s and 1970s Foster explores how socialist analysts and materialist scientists of various stamps first in Britain then the United States from William Morris and Frederick Engels to Joseph Needham Rachel Carson and Stephen J Gould sought to develop a dialectical naturalism rooted in a critique of capitalism In the process he delivers a far reaching and fascinating reinterpretation of the radical and socialist origins of ecology Ultimately what this book asks for is nothing short of revolution
