People Leonardo Bruni, 2001 **The Florentines** Paul Strathern, 2021-07-06 A sweeping and magisterial four hundred year history of both the city and the people who gave birth to the Renaissance Between the birth of Dante in 1265 and the death of Galileo in 1642 something happened that transformed the entire culture of western civilization Painting sculpture and architecture would all visibly change in such a striking fashion that there could be no going back on what had taken place Likewise the thought and self conception of humanity would take on a completely new aspect Sciences would be born or

emerge in an entirely new guise The ideas that broke this mold began and continued to flourish in the city of Florence in northern central Italy These ideas which placed an increasing emphasis on the development of our common humanity rather than other worldly spirituality coalesced in what came to be known as humanism This philosophy and its new ideas would eventually spread across Italy yet wherever they took hold they would retain an element essential to their origin And as they spread further across Europe this element would remain Transformations of human culture throughout western history have remained indelibly stamped by their origins The Reformation would always retain something of central and northern Germany The Industrial Revolution soon outgrew its British origins yet also retained something of its original template Closer to the present the IT revolution that began in Silicon Valley remains indelibly colored by its Californian origins Paul Strathern shows how Florence and the Florentines themselves played a similarly unique and transformative role in the Renaissance

Orsanmichele Marie D'Aguanno Ito,2023-10-09 This work provides a new narrative for Orsanmichele in the era before the Renaissance It examines Orsanmichele from the mid thirteenth century as the piazza transformed into the city's grain market It considers the market's tandem confraternity with its stunning Madonnas over three successive loggias It examines the grain market and confraternity from a social economic political and artistic perspective It provides extensive data on the Florentine grain trade sales at the market and the nexus between traders political leaders and the confraternity The work suggests that developments at Orsanmichele during the medieval period formed the basis for the Renaissance structure

The Florentine Frame Elizabeth Robins,1909 **The Grand Tour** Thomas Nugent,1756 *The Crisis of the Early Italian Renaissance* Hans Baron,1966-03-21 Hans Baron was one of the many great German migr scholars whose work Princeton brought into the Anglo American world His Crisis of the Early Italian Renaissance has provoked more discussion and inspired more research than any other twentieth century study of the Italian Renaissance Baron's book was the first historical synthesis of politics and humanism at that momentous critical juncture when Italy passed from medievalism to the thought of the Renaissance Baron unlike his peers married culture and politics he contended that to truly understand the Renaissance one must understand the rise of humanism within the political context of the day This marked a significant departure for the field and one that changed the direction of Renaissance studies Moreover Baron's book was one of the first major attempts of any sort to ground intellectual history in a fully realized historical context and thus stands at the very origins of the interdisciplinary approach that is now the core of Renaissance studies Baron's analysis of the forces that changed life and thought in fifteenth century Italy was widely reviewed domestically and internationally and scholars quickly noted that the book will henceforth be the starting point for any general discussion of the early Renaissance The Times Literary Supplement called it a model of the kind of intensive study on which all understanding of cultural process must rest First published in 1955 in two volumes the work was reissued in a one volume Princeton edition in 1966 **To Florence con amore. 90 ways to love the city** Jane Fortune,2011 From famous frescos and family restaurants to meditative spots
