The Gods' Machines Wun Chok Bong,2008-05-27 Based on the author s decipherment of prehistoric carvings and the application of mathematical measurements The Gods Machines shows how unknown phenomena from Angkor Wat to Stonehenge to crop circles are actually powerhouses built by an advanced extraterrestrial civilization for tapping electromagnetic energy The book traces the development of that civilization on Earth over 5 000 years revealing how all these structures are aligned according to a universal formula an angle of 135 degrees at which Earth s energy has been tapped by the alien creators of these monuments These fascinating theories not only explain our distant past but also open the door to a future of power technology and space travel Megalithic sites such as Newgrange and Stonehenge are constructed with quartz and iron rich stones with electrical conduction properties minerals also found atop Aztec temple and inside crop circles These stones according to the author served as dry cell batteries when heated and stressed and supplied energy to the builders traveling vehicles Most interestingly the author has tested his theory on today s crop circles The Gods

Machines is certain to stimulate debate among readers interested in alternative history ancient civilization and extraterrestrial intelligence

The Rescuers Nancy Moses,2025-02-04 This book profiles some of the handful of people who rescued significant cultural treasures that would or may have been otherwise lost to humankind Some like Dr Assad were on a noble mission but that is not always the case Some are motivated by profit fame gratitude or personal advancement The act of rescue may not be straightforward even the most heroic ones can be tainted suspect illegal or ethically equivocal The ten stories in The Rescuers include a variety of objects

motivations locations and historic periods They include a Scottish prehistoric site Soviet era seed banking mid 20th century photographic masterworks African American and immigrant folk music Alaskan Native ceremonial and cultural objects and a German language Czech author whose manuscripts now reside in an Israeli archive While each is a unique story it is also representative of similar cases Chapters explore some of the most controversial issues facing society today appropriation repatriation indigenous rights copyright law racism and the impact of tourism on fragile cultural sites What does the act of rescue mean What is the psychology of those who commit these acts Should the imperatives of society trump the rights of individuals to control their own legacy Is more ethical for a museum to preserve cultural treasures or to return them to a tribe that might destroy them What are the trade offs between economic development and historic preservation These are the conundrums of today the challenges of the future The stories included cover The Monuments Officers recovery of cultural treasures stolen by Nazis The saving of Skara Brae in Scotland by the Laird of Breckness The rescue of the Iraqi Jewish Archive by Harold Rhode and Doris Hamburg Tom Cade s preservation of Peregrine falcons Louis Shotridge and George B Gordon s saving of Alaska s Tlingit culture The preservation of American folk songs by John Lomax
