Sketches and Studies in Italy and Greece by John Addington Symonds Of all the joys in life none is greater than the joy of arriving on the outskirts of Switzerland at the end of a long dusty day s journey from Paris The true epicure in refined pleasures will never travel to Basle by night He courts the heat of the sun and the monotony of French plains their sluggish streams and never ending poplar trees for the sake of the evening coolness and the gradual approach to the great Alps which await him at the close of the day It is about Mulhausen that he begins to feel a change in the landscape The fields broaden into rolling downs watered by clear and running streams the green Swiss thistle grows by riverside and cowshed pines begin to tuft the slopes of gently rising hills and now the sun has set the stars come out first Hesper then the troop of lesser lights and he feels yes indeed there is now no mistake the well known well loved magical fresh air that never fails to blow from snowy mountains and meadows watered by perennial streams The last hour is one of exquisite enjoyment and when he reaches Basle he scarcely sleeps all night for hearing the swift Rhine beneath the balconies and knowing that the moon is shining on its waters through the town beneath the bridges between pasture lands and copses up the still mountain girdled valleys to the ice caves where the water springs There is nothing in all experience of travelling like this We may greet the Mediterranean at Marseilles with enthusiasm on entering Rome by the Porta del Popolo we may reflect with pride that we have reached the goal of our pilgrimage and are at last among world shaking memories But neither Rome nor the Riviera wins our hearts like Switzerland We do not lie awake in London thinking of them we do not long so intensely as the year comes round to revisit them Our affection is less a passion than that which we cherish for Switzerland We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing
