Nolan, 2010-04-22 A comprehensive and integrated military political and strategic history of World War II ranging from the daily life of conscripts and civilians to operational and strategic decision making at the highest levels Filled with up to date scholarship yet supremely manageable and accessible The Concise Encyclopedia of World War II offers the opportunity to explore a conflict that remains a source of fascination for scholars students and general readers alike From the battlefields to the corridors of power from the barracks to the home front The Concise Encyclopedia of World War II provides a complete portrait of the war Entries not only address major battles and campaigns but political economic and cultural issues as well plus brief portraits of the conflict's commanding personalities Its global perspective notably corrects the usual Western focus

of World War II studies incorporating a wealth of information on often underreported topics such as the Eastern Front and the Sino Japanese War Germany 1945 Richard Bessel, 2012-09-27 In 1945 Germany experienced the greatest outburst of deadly violence that the world has ever seen Germany 1945 examines the country's emergence from the most terrible catastrophe in modern history When the Second World War ended millions had been murdered survivors had lost their families cities and towns had been reduced to rubble and were littered with corpses Yet people lived on and began rebuilding their lives in the most inauspicious of circumstances Bombing military casualties territorial loss economic collapse and the processes of denazification gave Germans a deep sense of their own victimhood which would become central to how they emerged from the trauma of total defeat turned their backs on the Third Reich and its crimes and focused on a transition to relative peace Germany's return to humanity and prosperity is the hinge on which Europe's twentieth century turned For years we have concentrated on how Europe slid into tyranny violence war and genocide this book describes how humanity began to get back out **Deathride** John Mosier, 2010-06-15 Originally published as Deathride this is the true story of the Eastern Front in World War II emphasizing how close Germany came to winning and the USSR to losing the severity of the Soviet losses which have been minimized due to Soviet propaganda and the importance of the Allied invasions of North Africa and Sicily among other factors in forcing Hitler to re deploy troops saving the Soviets from disaster The German invasion of the Soviet Union on June 22 1941 began a war that lasted nearly four years and created by far the bloodiest theater in World War II In the conventional narrative of this war Hitler was defeated by Stalin because like Napoleon he underestimated the size and resources of his enemy In fact says historian John Mosier Hitler came very close to winning and lost only because of the intervention of the western Allies Stalin's great triumph was not winning the war but establishing the prevailing interpretation of the war The Great Patriotic War as it is known in Russia would eventually prove fatal setting in motion events that would culminate in the collapse of the Soviet Union Mosier argues that the Soviet losses in World War II were unsustainable and would eventually have led to defeat The Soviet Union had only twice the population of Germany at the time but it was suffering a casualty rate more than two and a half times the German rate Because Stalin had a notorious habit of imprisoning or killing anyone who brought him bad news and often their families as well Soviet battlefield reports were fantasies and the battle plans Soviet generals developed seldom responded to actual circumstances In this respect the Soviets waged war as they did everything else through propaganda rather than actual achievement What saved Stalin was the Allied decision to open the Mediterranean theater Once the Allies threatened Italy Hitler was forced to withdraw his best troops from the eastern front and redeploy them In addition the Allies provided heavy vehicles that the Soviets desperately needed and were unable to manufacture themselves It was not the resources of the Soviet Union that defeated Hitler but the resources of the West In this provocative revisionist analysis of the war between Hitler and Stalin Mosier provides a dramatic vigorous narrative of events as he shows how most previous histories accepted Stalin's lies and distortions to produce a false

sense of Soviet triumph This is the real story of the Eastern Front fresh and different from what we thought we knew **500 Days** Sean M. McAteer,2009 **Berlin Soldier** Helmut Altner,2016-08-12 This book is an explosive memoir of a 17 year old German boy called up to fight in the last weeks of the Second World War This is a teenager s vivid account of his experiences as a conscript during the final desperate weeks of the Third Reich during which he experienced training immediately behind the front line east of Berlin was caught up in the massive Soviet assault on Berlin from the Oder retreated successfully and then took part in the fight for the western suburb of Spandau where he became one of the only two survivors of his company of seventeen year olds Annihilation Thomas Zeiler,2011 From 1937 to 1945 the world witnessed a succession of savage military policies innovations and actions on the field in the water and in the skies that resulted in the butchery of over fifty million people The military history of the Second World War involves heroism and evil effective and hopeless strategies bold and pointless operations calculation and luck politics and diplomacy and production and attrition This study incorporates recent scholarship on the military history of the Second World War to examine both chronologically and in a comprehensive geographic way the most destructive event in recorded human history Annihilation argues that World War II evolved into a war of annihilation a total war that engulfed militaries and civilians alike and spared no country either destruction or blame for the carnage The book questions the adopted intention of the good war thesis by wielding the strategy of annihilation on all sides as an architectural framework Readers will find global coverage linking together all theaters of the conflict in a narrative that advances from the beginning to end of the war This is the first study of the World War II that allows instructors to assign chapters of the book according to time periods or by place *Bloody Streets* A. Stephan Hamilton,2008 Covers in unprecedented detail the planning execution and aftermath of the Soviet assault on Berlin *Achtung Tiger - Kisah Legendaris Unit Tank Berat Waffen-SS* Nino Oktorino,2020-11-23 Entah ada badai atau salju entah mentari tersenyum pada kami Siang panas terik atau malam sedingin es Debu melekat di wajah kami tetapi kami bahagia Ya kami bahagia Tank kami bergemuruh maju ke tengah angin badai Panzerlied Benjamin Frankel Muncul pertama kali sebagai tandingan T 34 Soviet yang tangguh tank Tiger segera menjadi sebuah senjata yang ditakuti oleh Sekutu pada masa Perang Dunia II Sejak kemunculannya kendaraan lapis baja Sekutu tidak dapat lagi berkeliaran di medan laga tanpa mengalami kerugian besar Apalagi ketika monster lapis baja Jerman ini dioperasikan oleh Waffen SS pasukan pengawal Hitler yang ditakuti Achtung Tiger merupakan kisah aksi gabungan dari mesin militer Hitler yang tangguh dan mematikan ini Sebuah teror yang menakutkan bagi musuh musuhnya sekaligus mengharumkan nama militer Jerman
