

SHAKESPEARE'S HISTORY PLAYS

A TIMELESS CLASSIC

William Shakespeare

Stories From Shakespeares History Plays

M Walker

Stories From Shakespeares History Plays:

Shakespeare's History Plays Robert Watt, 2014-06-11 Shakespeare's history plays are central to his dramatic achievement. In recent years they have become more widely studied than ever, stimulating intensely contested interpretations due to their relevance to central contemporary issues such as English national identities and gender roles. Interpretations of the history plays have been transformed since the 1980s by new theoretically informed critical approaches. Movements such as New Historicism and cultural materialism, as well as psychoanalytical and post colonial approaches, have swept away the humanist consensus of the mid twentieth century with its largely conservative view of the plays. The last decade has seen an emergence of feminist and gender based readings of plays which were once thought overwhelmingly masculine in their concerns. This book provides an up to date critical anthology representing the best work from each of the modern theoretical perspectives. The introduction outlines the changing debate in an area which is now one of the liveliest in Shakespearean criticism.

Four Tales from Shakespeare's History Plays William Shakespeare, 1994 The intention of this book is to introduce new readers to four of Shakespeare's historical plays. The plays are abridged and simplified and are suitable for non native speakers of English from lower intermediate level upwards.

Shakespeare's History Plays A. J. Hoenselaars, 2004-09-23 This volume, with a foreword by Dennis Kennedy, addresses a range of attitudes to Shakespeare's English history plays in Britain and abroad from the early seventeenth century to the present day. It concentrates on the play texts as well as productions, translations and adaptations of them. The essays explore the multiple points of intersection between the English history they recount and the experience of British and other national cultures, establishing the plays as genres not only relevant to the political and cultural history of Britain but also to the history of nearly every nation worldwide. The plays have had a rich international reception tradition, but critics and theatre historians abroad, those practising foreign Shakespeare, have tended to ignore these plays in favour of the comedies and tragedies. By presenting the British and foreign Shakespeare traditions side by side, this volume seeks to promote a more finely integrated world Shakespeare.

Shakespeare's Serial History Plays Nicholas Grene, 2002-01-03 Shakespeare's Serial History Plays provides a re-reading of the two sequences of English history plays: Henry VI, Richard III and Richard II; Henry V. Reconsidering the chronicle sources and the staging practices of Shakespeare's time, Grene argues that the history plays were originally designed for serial performance. He charts the cultural and theatrical conditions that led to serial productions of the histories in Europe as well as in the English speaking world and looks at their original creation in the 1590s and at modern productions or adaptations from famous stagings such as the Royal Shakespeare Company's 1960s Wars of the Roses through to the present day. Grene focuses on the issues raised by the plays' seriality: the imagination of war, the emergence of character and the uses of prophecies and curses through the first four techniques of retrospection, hybrid dramatic forms and questions of irony and agency in the second.

STORIES OF SHAKESPEARES ENGLISH Helene Adeline Guerber, William 1564-1616
