Stories Of An Exhibitiontwo Millenia Of German Jewish History:

Stories of an Exhibition Ingke Brodersen,Rüdiger Dammann,2001 Exhibition catalog for the permanent exhibition on German Jewish History at the Jewish Museum Berlin
Homes of the Past Jeffrey Shandler,2024-06-04 Homes of the Past tells the powerful story of how immigrant Jewish scholars in 1940s New York sought to build a museum to commemorate their lost worlds and people Among the Jews who arrived in the United States in the early 1940s were a small number of Polish scholars who had devoted their professional lives to the study of Europe s Yiddish speaking Jews at the YIVO Institute for Jewish Research Faced with the devastating knowledge that returning to their former homes and resuming their scholarly work there was no longer viable they sought to address their profound sense of loss by continuing their work under radically different circumstances to document the European Jewish lives places and ways of living that were being destroyed In pursuing this daunting agenda they made a remarkable decision they would create a museum to memorialize East European Jewry and educate American Jews about this legacy YIVO scholars determinedly pursued this undertaking for several years publicizing the initiative and collecting materials to exhibit However the Museum of the Homes of the Past was abandoned shortly after the war ended With insight and clarity Jeffrey Shandler draws upon the surviving archival sources to tell the story of the purpose development and ultimate fate of the Museum of the Homes of the Past Homes of the Past explores this largely unknown episode of modern Jewish history and museum history and demonstrates that the project even though it was never realized marked a critical inflection point in the dynamic interrelations between Jews in America and Eastern Europe Modern Judaism and Historical Consciousness Christian Wiese,Andreas Gotzmann,2007-05-11 The volume composed by excellent scholars from different academic disciplines is a comprehensive handbook devoted to the complex relationship between modern Judaism and historical thinking in Europe the United States and Israel from the Enlightenment to the present Apart from analyzing the emergence of a new scholarly historical paradigm during this period the contributions interpret the interaction and the tensions between Jewish historiography and other disciplines such as literature theology sociology and philosophy describe the way historical consciousness was popularized and used for ideological purposes and explore the impact of different religious or secular identities on the historical representation of the Jewish past A final part envisions new theoretical and methodological concepts within the field including cultural studies and gender studies **Being Jewish in the New Germany** Jeffrey M. Peck,2006 This book was written for an American Jewish readership But some chapters especially the first two address the non specialist while others especially the last two accommodate the expert The work contains one theme and one thesis The theme is simple and to be welcomed Americans and American Jews in particular need to understand that Germany has changed and that its Jewish community is made up of more than just a few souls morbidly attached to blood soaked soil We are therefore introduced to Jewish writers politicians and intellectuals to Jews of Russian origin German background and Israeli descent and to the many issues facing today s

German Jewish community of 100 000 plus members Peck discusses the role of the Holocaust in German and American political life He relates how Russian Jews have begun to take over community institutions revitalizing German Jewry especially in Berlin and the provinces And he compares and contrasts the situation of Turks and Jews today whom many Germans still perceive as foreign no matter how acculturated they happen to be All of this material is interesting but not new

Review from H Net *Visualizing the Holocaust* David Bathrick, Brad Prager, Michael David Richardson, 2008 Visual representations are an essential but highly contested means of understanding and remembering the Holocaust Photographs taken in the camps in early 1945 provided proof of and visceral access to the atrocities Later visual representations such as films paintings and art installations attempted to represent this extreme trauma While photographs from the camps and later aesthetic reconstructions differ in origin they share goals and have raised similar concerns the former are questioned not as to veracity but due to their potential inadequacy in portraying the magnitude of events the latter are criticized on the grounds that the mediation they entail is unacceptable Some have even questioned any attempt to represent the Holocaust as inappropriate and dangerous to historical understanding This book explores the taboos that structure the production and reception of Holocaust images and the possibilities that result from the transgression of those taboos Essays consider the uses of various visual media aesthetic styles and genres in representations of the Holocaust the uses of perpetrator photography the role of trauma in memory aesthetic problems of mimesis and memory in the work of Lanzmann Celan and others and questions about mass cultural representations of the Holocaust David Bathrick is Emeritus Professor of German at Cornell University Brad Prager is Associate Professor of German at the University of Missouri and Michael D Richardson is Associate Professor of German at Ithaca College

The Persistence of Nationalism Angharad Closs Stephens, 2013-03-12 This is a book about the difficulties of thinking and acting politically in ways that refuse the politics of nationalism The book offers a detailed study of how contemporary attempts by theorists of cosmopolitanism citizenship globalism and multiculturalism to go beyond nationalism often reproduce key aspects of a nationalist imaginary It argues that the challenge of resisting nationalism will require more than a shift in the scale of politics from the national up to the global or down to the local and more than a shift in the count of politics to an emphasis on diversity and multiculturalism In order to avoid the grip of nationalist thinking we need to re open the question of what it means to imagine community Set against the backdrop of the imaginative geographies of the War in Terror and the new beginning promised by the Presidency of Barack Obama the book shows how critical interventions often work in collaboration with nationalist politics even when the aim is to resist nationalism It claims that a nationalist imaginary includes powerful understandings of freedom subjectivity sovereignty and political space time which must also be placed under question if we want to avoid reproducing ideas about us and them Drawing on insights from feminist cultural and postcolonial studies as well as critical approaches to International Relations and Geography this book presents a unique and refreshing approach to the politics of nationalism Luigi Nono Carola

Nielinger-Vakil,2015 Carola Nielinger Vakil examines selected works by Nono in the historical context of Italy and Germany after 1945

2001 Susan Sarah Cohen,2013-02-18 This work includes international secondary literature on anti-Semitism published throughout the world from the earliest times to the present. It lists books, dissertations, and articles from periodicals and collections from a diverse range of disciplines. Written accounts are included among the recorded titles as are manifestations of anti-Semitism in the visual arts, e.g., painting caricatures or film action taken against Jews and Judaism by discriminating judiciaries, pogroms, massacres, and the systematic extermination during the Nazi period. The bibliography also covers works dealing with philo-Semitism or Jewish reactions to anti-Semitism and Jewish self-hate. An informative abstract in English is provided for each entry, and Hebrew titles are provided with English translations.

Socialism of Fools Michele Battini,2016-04-05 In *Socialism of Fools*, Michele Battini focuses on the critical moment during the Enlightenment in which anti-Jewish stereotypes morphed into a sophisticated modern social anti-Semitism. He recovers the potent anti-Jewish anticapitalist propaganda that cemented the idea of a Jewish conspiracy in the European mind and connects it to the atrocities that characterized the Jewish experience in the nineteenth and twentieth centuries. Beginning in the eighteenth century, counter-Enlightenment intellectuals and intransigent Catholic writers singled out Jews for conspiring to exploit self-sustaining markets and the liberal state. These ideas spread among socialist and labor movements in the nineteenth century and intensified during the Long Depression of the 1870s. Anti-Jewish anticapitalism then migrated to the Habsburg Empire with the Christian Social Party, to Germany with the Anti-Semitic Leagues, to France with the nationalist movements, and to Italy where Revolutionary Syndicalists made anti-Jewish anticapitalism the basis of an alliance with the nationalists. Exemplified best in the *Protocols of the Elders of Zion*, the infamous document that leaked Jewish plans to conquer the world, the Jewish conspiracy myth inverts reality and creates a perverse relationship to historical and judicial truth. Isolating the intellectual roots of this phenomenon and its contemporary resonances, Battini shows us why so many decades after the Holocaust, Jewish people continue to be a powerful political target.

Visitors to the House of Memory Victoria Bishop Kendzia,2017-12-29 As one of the most visited museums in Germany's capital city, the Jewish Museum Berlin is a key site for understanding not only German Jewish history but also German identity in an era of unprecedented ethnic and religious diversity. *Visitors to the House of Memory* is an intimate exploration of how young Berliners experience the Museum. How do modern students relate to the museum's evocative architecture, its cultural-political context, and its narrative of Jewish history? By accompanying a range of high school history students before, during, and after their visits to the museum, this book offers an illuminating exploration of political education, affect, remembrance, and belonging.
