**Railway Chronicle** ,1845     **Bradshaw's Railway Gazette** ,1846     Worlds Before Adam Martin J. S.

Rudwick, 2010-04-05 In the late eighteenth and early nineteenth centuries scientists reconstructed the immensely long history of the earth and the relatively recent arrival of human life The geologists of the period many of whom were devout believers agreed about this vast timescale But despite this apparent harmony between geology and Genesis these scientists still debated a great many questions Had the earth cooled from its origin as a fiery ball in space or had it always been the same kind of place as it is now Was prehuman life marked by mass extinctions or had fauna and flora changed slowly over time The first detailed account of the reconstruction of prehuman geohistory Martin J S Rudwick s *Worlds Before Adam* picks up where his celebrated *Bursting the Limits of Time* leaves off Here Rudwick takes readers from the post Napoleonic Restoration in Europe to the early years of Britain s Victorian age chronicling the staggering discoveries geologists made during the period the unearthing of the first dinosaur fossils the glacial theory of the last ice age and the meaning of igneous rocks among others Ultimately Rudwick reveals geology to be the first of the sciences to investigate the historical dimension of nature a model that Charles Darwin used in developing his evolutionary theory Featuring an international cast of colorful characters with Georges Cuvier and Charles Lyell playing major roles and Darwin appearing as a young geologist *Worlds Before Adam* is a worthy successor to Rudwick s magisterial first volume Completing the highly readable narrative of one of the most momentous changes in human understanding of our place in the natural world *Worlds Before Adam* is a capstone to the career of one of the world s leading historians of science     **Bursting the Limits of Time** Martin J. S.

Rudwick, 2008-11-15 In 1650 Archbishop James Ussher of Armagh joined the long running theological debate on the age of the earth by famously announcing that creation had occurred on October 23 4004 B C Although widely challenged during the Enlightenment this belief in a six thousand year old planet was only laid to rest during a revolution of discovery in the late eighteenth and early nineteenth centuries In this relatively brief period geologists reconstructed the immensely long history of the earth and the relatively recent arrival of human life Highlighting a discovery that radically altered existing perceptions of a human s place in the universe as much as the theories of Copernicus Darwin and Freud did *Bursting the Limits of Time* is a herculean effort by one of the world s foremost experts on the history of geology and paleontology to sketch this historicization of the natural world in the age of revolution Addressing this intellectual revolution for the first time Rudwick examines the ideas and practices of earth scientists throughout the Western world to show how the story of what we now call deep time was pieced together He explores who was responsible for the discovery of the earth s history refutes the concept of a rift between science and religion in dating the earth and details how the study of the history of the earth helped define a

new branch of science called geology Rooting his analysis in a detailed study of primary sources Rudwick emphasizes the lasting importance of field and museum based research of the eighteenth and nineteenth centuries Bursting the Limits of Time the culmination of more than three decades of research is the first detailed account of this monumental phase in the history of science **The Law Times** ,1846 *Taunton & Lyme Regis, Chard & Bridport* ,2016-02-24 *Taunton and Lyme Regis, Chard and Bridport* Ordnance Survey Staff,2001-12-01 **The Official Guide to the London and South Western Railway** Cassell and Company, Ltd,1894 *Cary's New itinerary; or, An accurate delineation of the great roads ... throughout England and Wales; with many of the principal roads in Scotland [&c.].* John Cary,1821 *Cary's New Itinerary: Or, An Accurate Delineation of the Great Roads ...
