**Tax Law and Racial Economic Justice** Andre L. Smith, 2015-06-03 No study of Black people in America can be complete without considering how openly discriminatory tax laws helped establish a racial caste system in the United States how they were designed to exclude blacks from lucrative markets and the voting franchise and how tax laws extracted and redistributed vast sums of black wealth Not only was slavery nearly a 100% tax on black labor so too was Jim Crow apartheid and tax laws specified the peculiar institution as negro slavery The first instances of affirmative action in the United States were tax laws designed to attract white men to the South The nineteenth century Federal Tariff indirectly redistributed perhaps a majority of the profits from slavery from the South to the North and is the principle reason the Confederate states seceded The only constitutional amendment obtained by the Civil Rights Movement is the Twenty Sixth Amendment abolishing poll taxes in federal elections Blending traditional legal theory neoclassical economics and a pan African view of history these six interrelated essays on race and taxes demonstrate that even in today's supposedly post racial society there is no area of human activity where racial dynamics are absent

**Ethics and Taxation** Robert F. van Brederode, 2019-11-02 This book does not present a single philosophical approach to taxation and ethics but instead demonstrates the divergence in opinions

and approaches using a framework consisting of three broad categories tax policy and design of tax law ethical standards for tax advisors and taxpayers and tax law enforcement In turn the book addresses a number of moral questions in connection with taxes concerning such topics as the nature of government the relation between government the state and its subjects or citizens the moral justification of taxes the link between property and taxation tax planning evasion and avoidance corporate social responsibility the use of coercive power in collecting taxes and enforcing tax laws ethical standards for tax advisors tax payer rights the balance between individual rights to liberty and privacy and government compliance and information requirements the moral justification underlying the efforts of legislators and policymakers to restructure society and steer individual and corporate behavior
