Taxation Of Corporations And Their Shareholders:

The Taxation of Corporations and Their Shareholders David J. Shakow, 1991 **The Taxation of Corporations and Shareholders** Martin Norr, 2013-06-29 This monograph is principally the work of the late Martin Norr. He completed a draft of the entire monograph but had not yet revised it when he died in late 1972. At that time the integration of corporate and shareholder taxation was just beginning to become of widespread interest in the United States. With the increasing interest thereafter the International Tax Program began to revise his manuscript making as few changes as possible in the original draft. We had the benefit of criticism and analysis from Professor Richard M. Bird of the University of Toronto, now Director of the Institute of Policy Analysis there. In addition, Mr. Mitsuo Sato of the Ministry of Finance in Japan gave freely of his time in carefully suggesting changes throughout the manuscript. The present version of Chapter 3 owes a great deal to his additions and suggestions. Thanks are also due to Professor Hugh J. Ault of Boston College Law School for the Appendix containing his description of the German integration system that became effective in 1977, which was first published in *Law Policy in International Business*. Mr. Norr's interest in the subject of corporate and shareholder taxation developed while he was writing the International Tax Program's World Tax Series volume *Taxation in France*, published in 1966. The integration of French taxes on corporations and shareholders took place just after that volume was finished but had been under discussion in France for some time before then. **Tax Aspects of Acquisitions and Mergers** United States. Congress. House. Committee on Ways and Means. Subcommittee on Oversight, 1985 **The Taxation of Corporations** Edwin Robert Anderson Seligman, 1890 *Tax Havens and Their Use by United States Taxpayers* Richard A. Gordon, 1981 Overview of tax havens and the use of tax havens by US taxpayers. The study sought to determine the frequency and nature of tax haven transactions, identify specific types of tax haven transactions, obtain a description of the US and foreign legal and regulatory environment in which tax haven transactions are conducted, describe the IRS and Justice Department efforts to deal with tax haven related transactions, and to identify interagency coordination problems. *Taxation of Corporations in New York, Massachusetts, Pennsylvania and New Jersey* Robert Harvey Whitten, 1901 *The International Taxation System* Andrew Lymer, John Hasseldine, 2012-12-06 International taxation is a vital issue for a growing number of business and individuals across the world. The need to understand how the international system of taxation works is therefore a subject of importance to many people. The International Taxation System provides this understanding by bringing together experts from the most important fields in the subject who have each authored chapters especially for this book. They each provide brief, structured and easy to understand explanations of the key concepts, edited together into one volume to provide a unique, very readable guide to the field. While this text is aimed at masters or advanced undergraduate level students, it will also be of interest to those requiring a professional understanding of the topic. Each chapter introduces a different aspect of the international taxation system, explains the important issues to be understood in each case, and provides suggestions for discussion and
