The Price of Progress R. Rudy Higgins-Evenson,2003-05-01 Between the Civil War and the Great Depression twin revolutions swept through American business and government In business large corporations came to dominate entire sectors and markets In government new services and agencies especially at the city and state levels sprang up to ameliorate a broad spectrum of social problems In *The Price of Progress* R Rudy Higgins Evenson offers a fresh analysis of the relationship between those two revolutions Using previously unexploited data from the annual reports of state treasurers and comptrollers he provides a detailed empirical assessment of the goods and services provided to citizens as well as the resources extracted from them by state governments during the Gilded Age and Progressive Era Focusing on New York Massachusetts California and Kansas but including data on 13 other states his comparative study suggests that the corporate state originated in tax policies designed to finance new and innovative government services Business and government grew together in a surprising and complex fashion In the late nineteenth century services such as mental health care for the needy and free elementary education for all children created new strains on the states old property tax systems In order to pay for newly constructed state asylums and schools states experimented for the first time with corporate taxation as a source of revenue linking state revenues to the profitability of industries such as railroads and utilities To control their tax bills big businesses intensified lobbying efforts in state legislatures captured important positions in state tax bureaus and sponsored a variety of government efficiency reform organizations The unintended result of corporate taxation imposed to allow states to

fulfill their responsibilities to their citizens was the creation of increasingly intimate ties between politicians bureaucrats corporate leaders and progressive citizens By the 1920s a variety of corporate states had proliferated across the nation each shaped by a particular mix of taxation and public services each offering a case study in how the business of America as President Calvin Coolidge put it became business
