46 **All about Tea** William Harrison Ukers, 1935 Empire of Tea Markman Ellis, Richard Coulton, Matthew Mauger, 2015-06-15 Although tea had been known and consumed in China and Japan for centuries it was only in the seventeenth century that Londoners first began drinking it Over the next two hundred years its stimulating properties seduced all of British society as tea found its way into cottages and castles alike One of the first truly global commodities and now the world s most popular drink tea has also today come to epitomize British culture and identity This impressively detailed book offers a rich cultural history of tea from its ancient origins in China to its spread around the world The authors recount tea s arrival in London and follow its increasing salability and import via the East India Company throughout the eighteenth century inaugurating the first regular exchange both commercial and cultural between China and Britain They look at European scientists struggles to understand tea s history and medicinal properties and they recount the ways its delicate flavor and exotic preparation have enchanted poets and artists Exploring everything from its everyday use in social settings to the political and economic controversies it has stirred such as the Boston Tea Party and the First Opium War they offer a multilayered look at what was ultimately an imperial industry a collusion and often clash between the world s greatest powers over control of a simple beverage that has become an enduring pastime House Documents, Otherwise Publ. as Executive Documents United States. Congress. House, **Report Upon the Commercial Relations of the United States with Foreign Countries** United States. Department of Commerce and Labor. Bureau of Statistics, United States. Bureau of Foreign Commerce (1854-1903), 1869 *A Bowl for a Coin* William Wayne Farris, 2019-04-30 A Bowl for a Coin is the first book in any language to describe and analyze the history of all Japanese teas from the plant s introduction to the archipelago around 750 to the present day To understand the triumph of the tea plant in Japan William Wayne Farris begins with its cultivation and goes on to describe the myriad ways in which the herb was processed into a palatable beverage ultimately resulting in the wide variety of teas we enjoy today Along the way he traces in fascinating detail the shift in tea s status from exotic gift item from China tied to Heian 794 1185 court ritual and medicinal uses to tax and commodity for exchange in the 1350s to its complete nativization in Edo 1603 1868 art and literature and its eventual place on the table of every Japanese household Farris maintains that the increasing sophistication of Japanese agriculture after 1350 is exemplified by tea farming which became so advanced that Meiji 1868 1912 entrepreneurs were able to export significant amounts of Japanese tea to Euro American markets This in turn provided the much needed foreign

capital necessary to help secure Japan a place among the world's industrialized nations. Tea also had a hand in initiating Japan's industrious revolution. From 1400, tea was being drunk in larger quantities by commoners as well as elites and the stimulating habit-forming beverage made it possible for laborers to apply handicraft skills in a meticulous, efficient and prolonged manner. In addition to aiding in the protoindustrialization of Japan, by 1800 tea had by that time become a central commodity in the formation of a burgeoning consumer society. The demand pull of tea consumption necessitated even greater production into the postwar period and this despite challenges posed to the industry by consumers growing taste for coffee. A Bowl for a Coin makes a convincing case for how tea, an age-old drink that continues to adapt itself to changing tastes in Japan and the world, can serve as a broad lens through which to view the development of Japanese society over many centuries.

Tea sector review – Azerbaijan Prikhodko, D., Sterk, B., Sokolova, A., Monzini, J., Snell, J., 2022-05-17. This study was produced under an FAO EBRD Cooperation project on reviewing the development potential of the tea sectors of Azerbaijan and Georgia. As a result of the joint research in the two countries carried out as part of the project, a similar separate review of the Georgian tea sector was also published under the FAO Investment Centre's Knowledge for Investment K4I programme. Tea has a long tradition of cultivation in Azerbaijan and Georgia dating back to the nineteenth century. The structural changes that followed the collapse of the Soviet Union in the early 1990s led to a dramatic decline of the two countries' tea sectors. However, interest in tea production in Georgia and Azerbaijan has increased in recent years and in an effort to revive their once thriving tea sectors, governments have adopted sector development programmes that provide for support to primary tea production. In spite of the long tradition and accumulated know-how of tea production and processing, there is little doubt that investments in both technology and knowledge will be required for the Azerbaijani and Georgian tea sectors to grow in a successful and sustainable way. Production focused on efficiency and quality and mindful of shifts in consumer preferences on global markets but also of potential environmental risks will be critical in achieving this goal. This publication is part of the Country Investment Highlights series under the FAO Investment Centre's Knowledge for Investment K4I programme.
