Each unit contains exercises for you to practise what you have learnt and there is a key at the back of the book for you to check your answers. The new page design in this edition means that the book is even easier to use and the main headings are in English so that you can find your way around the book quickly. This edition contains a taking it further section which will direct you to further sources of real Welsh. Essential Welsh Grammar will help you to understand and manipulate Welsh grammar with confidence because you need no prior knowledge of grammatical terminology to use it. Language Obsolescence and Revitalization Mari C.

Jones, 1998. The territorial contraction and speaker reduction undergone by the Welsh language during the past few centuries has resulted in its categorization by many linguists as an obsolescent language. This study illustrates that although it is undeniably showing some signs of decline, Welsh stands in marked contrast to many previously documented cases of language death. Against this backdrop of contraction, a steady revitalization is taking place. Based upon extensive fieldwork in two sociolinguistically contrasting communities, this book is the first to examine the position and nature of contemporary

Welsh with reference to both obsolescence related developments and changes under way in the dialects Jones focuses on immersion education long heralded as the saviour of the language and by examining the variety of Welsh being produced by immersion pupils seeks to determine whether this claim is justified or whether such pupils are in fact speaking immersion As well as discussing the recent linguistic change shown by contemporary Welsh within the language death framework the author examines the ways in which the language has been standardized and their repercussions for language maintenance By way of comparison these tensions and implications are also explored with reference to the other varieties of P Celtic namely Breton and Cornish Series Information Oxford Studies in Language Contact Series Editor Professor Suzanne Romaine Merton College Oxford Series ISBN 0 19 961466 0 Series Description Most of the world's speech communities are multilingual and contact between languages is thus an important force in the everyday lives of most people Studies of language contact should therefore form an integral part of work in theoretical social and historical linguistics This series makes available a collection of research monographs which present case studies of language contact around the world As well as providing an indispensable source of data for the serious researcher it contributes significantly to theoretical developments in the field Complete Czech Beginner to Intermediate Course David Short, 2012-04-27 This product is most effective when used in conjunction with the corresponding audio support You can purchase the book and audio support as a pack ISBN 9781444106916 The audio support is also sold separately ISBN 9781444107012 copy and paste the ISBN number into the search bar to find these products Are you looking for a complete course in Czech which takes you effortlessly from beginner to confident speaker Whether you are starting from scratch or are just out of practice Complete Czech will guarantee success Now fully updated to make your language learning experience fun and interactive You can still rely on the benefits of a top language teacher and our years of teaching experience but now with added learning features within the course and online The course is structured in thematic units and the emphasis is placed on communication so that you effortlessly progress from introducing yourself and dealing with everyday situations to using the phone and talking about work By the end of this course you will be at Level B2 of the Common European Framework for Languages Can interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible without strain for either party Learn effortlessly with a new easy to read page design and interactive features NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success based on the author's many years of experience GRAMMAR TIPS Easy to follow building blocks to give you a clear understanding USEFUL VOCABULARY Easy to find and learn to build a solid foundation for speaking DIALOGUES Read and listen to everyday dialogues to help you speak and understand fast PRONUNCIATION Don't sound like a tourist Perfect your pronunciation before you go TEST YOURSELF Tests in the book and online to keep track of your progress EXTEND YOUR KNOWLEDGE Extra online articles at www.teachyourself.com to give you a richer
