The Neo-Buddhist Writings of Lafcadio Hearn Antony Goedhals,2020-04-20 The Neo Buddhist Writings of Lafcadio Hearn Light from the East by Antony Goedhals offers radical rereadings of a misunderstood and undervalued Victorian writer It reveals that at the metaphysical core of Lafcadio Hearn s writings is a Buddhist vision as yet unappreciated by his critics and

biographers Beginning with the American writings and ending with the essay and story meditations of the Japanese period the book demonstrates Hearn's deeply personal and transcendently beautiful evocations of a Buddhist universe and shows how these deconstruct and dissolve the categories of Western discourse and thinking about reality to create a new language a poetry of vastness emptiness and oneness that had not been heard before in English or indeed in the West *Buddhism In A Week: Teach Yourself* Clive Erricker, 2013-08-30 Learn in a week remember for a lifetime In just one week this accessible book will give you knowledge to last forever End of chapter summaries and multiple choice questions are all designed to help you test your knowledge and gain confidence So whether you are a student or you simply want to widen your knowledge you will find this seven day course a very memorable introduction Sunday Consider what Buddhism is and why it matters Monday Learn who the Buddha was and how he lived Tuesday Examine the Buddha's teaching on a wide range of issues Wednesday Discover the Buddhist scriptures and learn how they are interpreted today Thursday Explore meditation and Buddhist devotional practices Friday Engage with the ethics of Buddhism and how Buddhists respond to moral issues Saturday Clarify procedures for disciplinary interviews **Buddhism Briefly Explained: second revised edition** Lindsay Falvey, Siladasa, 2014 This book introduces Buddhism by describing its approach to spiritual development and those who undertake the Buddhist path It aims to make Buddhism more easily understood by those who might be unfamiliar with its objectives and this task is made easier by the pragmatic ways in which Buddhism meets our enduring urge for happiness Among the various spiritual traditions that have been developed over the past three thousand years to relieve humans of their suffering and distress Buddhism is perhaps the most methodical practical and comprehensive As a function of its essential tolerance and loving kindness the Buddhist tradition is expressed in a variety of forms that recognise different individual needs and diverse cultural environments throughout the world Our appreciation of this tradition as it expands in the West will increase as we understand some of its insights and key principles of spiritual development Selfless Persons Steven Collins, 1982 This book seeks to explain carefully and sympathetically the Buddhist doctrine of anatta not self which denies the existence of any self soul or enduring essence in human beings The author relates this doctrine to its cultural and historical context particularly to its Brahmanical background and shows how the Theravada Buddhist tradition has constructed a philosophical and psychological account of personal identity and continuity on the apparently impossible basis of the denial of self N?mapada: a guide to names in the Triratna Buddhist Order Jayarava, 2010
