Teacher And Pupil Some Socio Psychological Aspects:

Teacher and Pupil Philip Gammage, 2017-04-28 This title first published in 1971 provides a guide to the social psychology of learning The author examines the school class as a group and considers the formation of some of the attitudes of the children and the teacher as they relate to education Building upon interaction as a major theme the study focuses attention on the ways in which relationships can affect the classroom climate The background to group dynamics leads to the elements of sociometry and to consideration of teaching styles communication structure and perceptions of the teacher s role This title will be of interest to students of sociology and education **The Psychology of Learning** Gordon R.

Cross, 2016-06-06 The Psychology of Learning An Introduction for Students of Education provides a comprehensive coverage of educational psychology The title tackles various psychological variables that play a critical role in education The text first deals with learning theories such as classical conditioning operant conditioning and the Gestalt theory Next selection deals with the concept of memory which includes perception short and long term memory and forgetting The text also talks about motivation along with skills and language Chapter 7 covers thinking and problem solving while Chapter 8 tackles intelligence and ability The coverage of the title also includes personality and morality The book will be of great use to student teachers instructors and behavioral scientists **The Psychology of Teaching and Learning in the Primary School** David

Whitebread, 2002-01-04 This book reviews recent work in psychology which sheds new light on important areas of concern to primary school teachers providing clear guidelines for good practice The Psychology of Teaching and Learning in the Primary School details the current controversies regarding the effective teaching of reading and numeracy how to deal with emotional and behavioural difficulties the best methods of assessing learning as well as teaching children to think and develop their creativity It is a useful text for tutors and students on initial teacher training courses and to teachers involved in professional development Each chapter contains an editor s summary a list of further reading a full list of references and activities to develop and deepen the readers understanding in each area At the same time the book is written in an accessible style ideal for the non psychologist and is well illustrated with practical classroom examples **A Social Psychology of**

Schooling Colin Rogers, 2017-09-14 If a theory of education is to be helpful to the practising teacher it must take the social context of learning into account Originally published in 1982 Colin Rogers does just this exploring the implications of two decades detailed research in to the social psychology of teaching and learning The central theme that emerges from this study is the importance of the still controversial teacher expectancy effect the effect of teachers expectations on the performance of pupils By examining in detail the claims made by those who believe that the expectations of teachers can influence levels of pupils academic attainment the book shows the complexity of interpersonal interaction and perception within the classroom and the nature of problems involved in studying these It also focuses on the way that the mutual perceptions of teachers and pupils themselves affect and are affected by other aspects of life in a school and extensive use is

made of research conducted in British schools to illustrate major points The conclusion of the study was that it is the classroom the very environment in which teachers and pupils interact rather than teacher training that may need reform

Development of Creativity in Indian Schools Kanta Prasad Agarwal,1992 Highlights in Educational Psychology: Teacher-student Relationship Claudio Longobardi, Alberto Crescentini, Elisabetta Sagone,2024-12-16 We are pleased to introduce the collection Frontiers in Psychology Highlights in Educational Psychology Teacher student Relationship This collection will welcome and showcase a selection of articles about this timely topic authored by leaders in the field The work presented here highlights the broad diversity of research performed across education and aims to put a spotlight on the main areas of interest **Teacher-Pupil Conflict in Secondary Schools (1987)** Kate Cronk,2018-01-12 Published in 1987 the central question with which this book is concerned is what can and should teachers do about teacher pupil conflict in schools Few teachers in secondary education would need to have this sort of conflict described as even if that have been fortunate enough to avoid it themselves they will know of it from staffroom discussion and from the media In can be seen in disorderly classrooms where pupils mess about and have a laugh and in the bleak expression on the face of their teacher Equally it can be detected in those classrooms where the teacher is in firm control but where pupils gaze listlessly out of the window or only minimally comply with work demands It is characterized by sudden blazing temper on both sides and also by long periods of weariness boredom and disengagement It is not that conflict which might arise from temporary private troubles from having a bad day or going through a bad patch for it is there week in week out and involves significant numbers Such conflict has been of interest to both psychologists and sociologists of education and important contributions have been offered by both of these disciplines Sociologists have mapped out the differing cultural values and norms which appear to promote it They have identified the social constraints present within the environment in which it is produced constraints which emanate from the socio economic organization of society and from the maintenance of an institutional framework and which affect the micro dynamics of teacher pupil interaction Psychologists have described the effects on behaviour of genetic factors environmental conditions and cognitive states Important though such insights are however they can only speak indirectly to teacher practice This book provides an educational approach to the subject discussing topics including theoretical considerations teacher pupil discussion and relationships between classroom behaviour and the curriculum It will appeal to those involved with schools and education as well as psychologists educational sociologists and researchers *The First Sourcebook on Nordic Research in Mathematics Education* Bharath Sriraman,Simon Goodchild,Christer Bergsten,Gudbjorg Palsdottir,Lenni Haapasalo,Bettina Dahl Søndergaard,2010-09-01 The First Sourcebook on Nordic

Research in Mathematics Education Norway Sweden Iceland Denmark and contributions from Finland provides the first comprehensive and unified treatment of historical and contemporary research trends in mathematics education in the Nordic world The book is organized in sections co ordinated by active researchers in mathematics education in Norway Sweden Iceland Denmark and Finland The purpose of this sourcebook is to synthesize and survey the established body of research in these countries with findings that have influenced ongoing research agendas informed practice framed curricula and policy The sections for each country also include historical articles in addition to exemplary examples of recently conducted research oriented towards the future The book will serve as a standard reference for mathematics education researchers policy makers practitioners and students both in and outside the Nordic countries Teaching and Researching Motivation Zoltán Dörnyei, Ema Ushioda, 2021-04-21 Cultivating motivation is crucial to a language learner's success and therefore crucial for the language teacher and researcher to understand The third edition of Teaching and Researching Motivation reflects the dramatic changes in the field of motivation research With an increased emphasis on dynamic perspectives on motivation and its relations with other individual social and contextual factors this book offers ways in which advances in the field can be put to practical use in the classroom and in research Key new features and material exploration of the motivation to learn languages other than English LOTE principles for designing L2 motivational studies discussion of emerging areas of research including unconscious motivation and language learning mindsets Providing a clear and comprehensive theory driven account of motivation Teaching and Researching Motivation examines how theoretical insights can be used in everyday teaching practice The final section provides a range of useful resources including relevant websites key reference works and an online repository of tools and instruments for researching language learning motivation Fully revised by pre eminent researchers in this field Zoltán Dörnyei and Ema Ushioda this is an invaluable resource for teachers and researchers alike *Student-Teacher Relationship Quality Research: Past, Present and Future* Matteo Angelo Fabris, Karine Verschueren, Debora Roorda, Claudio Longobardi, 2022-11-24 Hearings, Reports and Prints of the Senate Committee on Government Operations United States. Congress. Senate. Committee on Government Operations, 1967 *Teacher Education across Minority-Serving Institutions* Emory Petchauer, Lynnette Mawhinney, 2017-03-21 The first of its kind Teacher Education across Minority Serving Institutions brings together innovative work from the family of institutions known as minority serving institutions Historically Black Colleges and Universities Tribal Colleges and Universities Hispanic Serving Institutions and Asian American and Native American Pacific Islander Serving Institutions The book moves beyond a singular focus on teacher racial diversity that has characterized scholarship and policy work in this area Instead it pushes for scholars to consider that racial diversity in teacher education is not simply an end in itself but is a means to accomplish other goals such as developing justice oriented and asset based pedagogies *Covid-19 and beyond: From (forced) remote teaching and learning to 'the new normal' in higher education* Rhoda Scherman, Gabriela Misca, David Ian Walker, Geneviève
