Teaching Children to Read Douglas Ray Reutzel, Robert B. Cooter, 2004 For Elementary Reading Methods courses This comprehensive and balanced look at literacy practice has long been one of the most popular reading methods texts available The text begins by introducing seven principles for comprehensive reading instruction and then explains the theoretical

foundations of teaching reading Part I builds on those foundations with specific methods in Part II and then in Part III it describes how to create a variety of learning centers and how to plan developmentally appropriate reading curriculum for students in both K 3 and 4 8 classrooms chapters 12 and 13 provide a continuum of knowledge by describing classroom organization and curriculum for grades 4 6 and 6 8

Classrooms that Work Patricia Marr Cunningham, Richard L. Allington, 2007

Cunningham and Allington's voice and presentation style are unique and I think this distinguishes their book from others. This book is an enjoyable and exciting read for my students. It makes them want to get out there and teach. They walk away from it with not only a sound set of teaching strategies but a strong sense of why they would use them and a belief that they can teach like this. Bravo Donna H. Topping, Millersville University.

Classrooms That Work's strengths are the knowledge of the authors, the organization and conversational tone of the text, and the emphasis on all children can learn. I believe the information presented changed my students' perspectives on how reading and writing should be viewed and taught. Brenda Bradshaw, Southwest Missouri State University.

This book is easy to understand. The most distinguishing feature is that it is comprehensive and less than 350 pages. It is practical in ways others are not. Dr. Susan McBridge, California Polytechnic State University.

The fourth edition of *Classrooms That Work* emphasizes a core set of ideas across a variety of timely topics, providing a comprehensive, balanced treatment of instructional reading methods for struggling and culturally diverse students. Pat Cunningham and Dick Allington, with their clear and friendly writing style, emphasize the importance of promoting the integration of phonics and literature-based process writing and reading instruction to enhance ALL students' learning and reading skills. It clarifies concepts, defines key terms, and offers just the right balance of research and practical coverage to make the content complete without being overwhelming. This affordable book helps teachers engage all children in meaning-centered reading by fostering powerful decoding and comprehension strategies and implementing a balanced reading program. It identifies and explores five components: real reading and writing, guided reading, guided writing, decoding, spelling, and word knowledge. The fourth edition is filled with workable, practical strategies and activities to use in the classroom. This book plays upon readers' natural curiosity and desire for relevance by offering a modern, applied approach to traditional reading topics and an in-depth look at areas of reading instruction not covered by other books. Chapters 11, 12, and 13 describe a sample day in a Building Blocks kindergarten, a sample day in a Four Blocks primary classroom, and a sample week in a Big Blocks intermediate classroom, respectively. Combined, these chapters show how all of the important components of a balanced literacy program can be integrated. For the fourth edition, the authors have reorganized the chapters to reflect an integrative approach to literacy. This new edition starts with *Creating Classrooms That Work*, a chapter that summarizes the characteristics of the most effective classrooms. Other chapters on words, comprehension, writing, and assessment inform teachers of the need for a balanced approach to literacy. There are also three new chapters in this edition: *Creating Enthusiastic Independent Readers*. Chapter 2 contains ideas for helping all children

become independent readers Building Vital Vivid and Valuable Vocabularies Chapter 5 describes practical strategies for building meaning vocabulary Building the Literacy Foundation Chapter 3 describes activities to get young children off to a successful start in reading and writing Meet the Authors Patricia M Cunningham is a professor of education at Wake Forest University in Winston Salem North Carolina She has taught in various elementary grades and been a curriculum coordinator and director of reading Her major professional goal is promoting literacy for all children Richard L Allington is a professor of education at the University of Tennessee at Knoxville He is a past president of the National Reading Conference and a member of the Reading Hall of Fame Dick has extensively researched effective teaching and how schools can develop effective expert teachers *Research-Based Methods of Reading Instruction, Grades K-3* Sharon Vaughn Vaughn, Sylvia Linan-Thompson, 2004-08-15 What does research tell us about how teachers can most effectively help young students learn to read In *Research Based Methods of Reading Instruction Grades K 3* Sharon Vaughn and Sylvia Linan Thompson explore the research on reading providing a comprehensive overview of the five core instructional areas and how each affects student achievement Phonemic awareness Phonics and Word Study Fluency Vocabulary Comprehension The authors include dozens of reading activities and lesson plans that teachers can use immediately all of which have worked in actual classrooms and are grounded in solid research A glossary and annotated resource lists will help you better understand key reading concepts and find reliable resources including relevant Web sites Whether your students have special needs or show no apparent learning difficulties this book will expand your repertoire of teaching strategies and help you put students on the road to literacy *50 Literacy Strategies* Gail Tompkins, 2012-04-25 This new edition is a conveniently organized resource for all elementary and middle school teachers providing research based and classroom tested strategies to develop literacy skills Everything you need to know to implement adapt and enrich each strategy is included *The Book of Reading and Writing Ideas, Tips, and Lists for the Elementary Classroom* Sandra Anderson, 2004 Here s a book you ll use over and over again It s a practical easy to use resource for every teacher who wants his or her students to be better readers and writers Packed with activities suggestions and ideas it s hard to decide which one to try first Tita Mallory Director of Curriculum Instruction and Assessment Aberdeen School District WA It s all here Anderson has included everything from research on effective literacy to specific instructional strategies to use in your classroom tomorrow Mike Nelson Assistant Superintendent Enumclaw School District WA A hands on book for teachers to create engaging learning opportunities for students A comprehensive guide that will become the teacher s best friend Linda Holliman Education Consultant Littleton CO Are You Getting the Results You Want From Your Reading and Writing Instruction This outstanding resource book provides research based practical ideas for creating a complete balanced reading and writing program that will make a difference for your students There is a wealth of information including the following Descriptions and implementation ideas for each component of a balanced reading and writing program Checklists for reviewing your own literacy program Effective strategies for teaching word study fluency and
