Literature, the Volk and the Revolution in

Mid-nineteenth Century Germany Michael Perraudin, 2000 Between the revolutions of 1830 and 1848 poverty reached new extremes in Germany as in other European countries and gave rise to a class of disaffected poor leading to the widespread expectation of a social revolution Whether welcomed or feared it dominated private and public debate to a larger extent than is generally assumed as is shown in this study on the reflections in literature of what was called the Social Question Examining works by Heine Eichendorff Novalis Schlegel Grillparzer and Theodor Storm the author reveals an acute awareness of political issues in an era in literature which is often seen as tending to quiescence and withdrawal from public preoccupations *The European Revolutions, 1848-1851* Jonathan Sperber, 1994-01-28 A student textbook designed to introduce in an accessible manner all the principal themes and problems of this period in European history
