The French Colonial Myth And Constitution Making In The Fourth Republic:

The French Colonial Myth and Constitution-making in the Fourth Republic D. Bruce Marshall, 1973-01-01 *The French Colonial Myth and Constitution-making in the Fourth Republic* Donald Bruce Marshall, 1973 **Cold War and Decolonization in Guinea, 1946-1958** Elizabeth Schmidt, 2007 Winner of the African Politics Conference Group's Best Book Award In September 1958 Guinea claimed its independence rejecting a constitution that would have relegated it to junior partnership in the French Community In all the French empire Guinea was the only territory to vote No Orchestrating the No vote was the Guinean branch of the Rassemblement Démocratique Africain RDA an alliance of political parties with affiliates in French West and Equatorial Africa and the United Nations trusts of Togo and Cameroon Although Guinea's stance vis-à-vis the 1958 constitution has been recognized as unique until now the historical roots of this phenomenon have not been adequately explained Clearly written and free of jargon *Cold War and Decolonization in Guinea* argues that Guinea's vote for independence was the culmination of a decade-long struggle between local militants and political leaders for control of the political agenda Since 1950 when RDA representatives in the French parliament severed their ties to the French Communist Party conservative elements had dominated the RDA In Guinea local cadres had opposed the break Victimized by the administration and sidelined by their own leaders they quietly rebuilt the party from the base Leftist militants their voices muted throughout most of the decade gained preeminence in 1958 when trade unionists students the party's women's and youth wings and other grassroots actors pushed the Guinean RDA to endorse a No vote Thus Guinea's rejection of the proposed constitution in favor of immediate independence was not an isolated aberration Rather it was the outcome of years of political mobilization by activists who despite Cold War repression ultimately pushed the Guinean RDA to the left The significance of this highly original book based on previously unexamined archival records and oral interviews with grassroots activists extends far beyond its primary subject In illuminating the Guinean case Elizabeth Schmidt helps us understand the dynamics of decolonization and its legacy for postindependence nation building in many parts of the developing world Examining Guinean history from the bottom up Schmidt considers local politics within the larger context of the Cold War making her book suitable for courses in African history and politics diplomatic history and Cold War history **French Military Rule in Morocco** Moshe Gershovich, 2012-10-12 This analysis of French colonial ideology and interest in Morocco delineates the manner in which the agents of the protectorate regime sought to conquer the country and control its indigenous inhabitants Numerous comparative perspectives are offered placing the French policy towards Morocco in a wider context making this study relevant to not only North Africa but also to other parts of the post colonial world **The American Experience in World War II: Pearl Harbor in history and memory** Walter L. Hixson, 2003 World War II changed the face of the United States catapulting the country out of economic depression political isolation and social conservatism Ultimately the war was a major formative factor in the creation of modern America This unique twelve volume

set provides comprehensive coverage of this transformation in its domestic policies diplomatic relations and military strategies as well as the changing cultural and social arenas The collection presents the history of the creation of a super power prior to during and after the war analyzing all major phases of the U S involvement making it a one stop resource that will be essential for all libraries supporting a history curriculum This volume is available on its own or as part of the twelve volume set *The American Experience in World War II* For a complete list of the volume titles in this set see the listing for *The American Experience in World War II* ISBN 0 415 94028 1

Perspectives on Imperialism and Decolonization R.F. Holland,G. Rivzi,2023-05-03 *Perspectives on Imperialism and Decolonization* 1984 is a key collection of essays that analyse from many sides the growth and demise of Western imperialism They examine imperial history the experience of imperialism and offer new thoughts on British decolonization

The State of Sovereignty Douglas Howland,Luise S. White,2009 *The State of Sovereignty* examines how it came to pass that the nation state became the prevailing form of governance in the world today Spanning the 19th and 20th centuries and addressing colonization and decolonization around the globe these essays argue that sovereignty is a set of historically contingent practices and not something that accrues naturally to states The contributors explore the different ways in which sovereign political forms have been defined and have defined themselves placing recent debates about nations and national identity within a broader history of sovereignty territory and legality

To Be Free and French Lorelle Semley,2017-07-10 The Haitian Revolution may have galvanized subjects of French empire in the Americas and Africa struggling to define freedom and Frenchness for themselves but Lorelle Semley reveals that this event was just one moment in a longer struggle of women and men of color for rights under the French colonial regime Through political activism ranging from armed struggle to literary expression these colonial subjects challenged and exploited promises in French Republican rhetoric that should have contradicted the continued use of slavery in the Americas and the introduction of exploitative labor in the colonization of Africa They defined an alternative French citizenship which recognized difference particularly race as part of a universal French identity Spanning Atlantic port cities in Haiti Senegal Martinique Benin and France this book is a major contribution to scholarship on citizenship race empire and gender and it sheds new light on debates around human rights and immigration in contemporary France

The French Communist Party and the Algerian War Daniele Joly,1991-04-19 **The End of Empire in French West Africa** Tony Chafer,2002-06-01 In an effort to restore its world power status after the humiliation of defeat and occupation France was eager to maintain its overseas empire at the end of the Second World War Yet just fifteen years later France had decolonized and by 1960 only a few small island territories remained under French control The process of decolonization in Indochina and Algeria has been widely studied but much less has been written about decolonization in France s largest colony French West Africa Here the French approach was regarded as exemplary that is a smooth transition successfully managed by well intentioned French politicians and enlightened African leaders Overturning this received wisdom Chafer argues that the

rapid unfurling of events after the Second World War was a complex piecemeal and unpredictable process resulting in a successful decolonization that was achieved largely by accident. At independence the winners assumed the reins of political power while the losers were often repressed, imprisoned or silenced. This important book challenges the traditional dichotomy between imperial and colonial history and will be of interest to students of imperial and French history, politics and international relations, development and post colonial studies.
