The Free University Of Berlin A Political History:

The Free University of Berlin James F. Tent, 1988

Failure of American and Soviet Cultural Imperialism in German Universities, 1945-1990 Natalia Tsvetkova, 2013-06-17 In Failure of American and Soviet Cultural Imperialism in German Universities 1945 1990 Natalia Tsvetkova describes the American and Soviet policies in German universities during the Cold War In both parts of divided Germany the conservative professorate resisted both the American and Soviet policies of reforms in universities Whether these policies can be considered cases of cultural imperialism will be discussed in this book As well as how and why both American and Soviet policies of the transformation of German universities eventually failed

Sinology during the Cold War Antonina Łuszczkiewicz, Michael Brose, 2022-05-18 This volume provides the first study of the history of sinology aka China studies as charted across several communist states during the Cold War The People's Republic of China was created in the first years of the Cold War with its early history and foreign policy intimately bound up in that larger geopolitical fight All the seismic changes in China's geopolitical landscape from its emergence and close relationship with the Soviet Union to the Sino Soviet split and the eventual rapprochement with the United States resulted in a great deal of interest by journalists politicians and scholars Yet although scholars across the Soviet Bloc produced an impressive body of work on a range of sinological studies with rare exceptions most of those scholars and their work remains unknown outside their own intellectual circles This book redresses this dearth of knowledge of sinological scholarship providing invaluable and unique glimpses of Soviet Bloc sinologists and their work during the Cold War including cutting edge research on lesser studied communist states such as Poland Hungary Mongolia and others International in scope this book is ideal for scholars and researchers of modern history Chinese studies sinology and the Cold War

The Political History of European Integration Hagen Schulz-Forberg, Bo Stråth, 2014-06-03 The Maastricht Treaty in 1992 was based on neoliberal ideas of a market driven European economy and democracy and continues to be seen as a step towards a new stage of unification towards a more federal Europe based on market integration The authors demonstrate that European integration as a federal project actually came to an end around 1970 The European Economic Community EEC the precursor of EU was never thought of as a democracy The authors locate a shift in thinking about legitimacy and further integration in the 1980s when the idea of a European democracy was connected with a plan for the internal market the market would pave the way for democracy Since then there has been a growing tension between the official line about a democratic EU and the institutional capacity to carry it through This tension undermined integration The book suggests that instead of democracy through market there are signs of increasing social disintegration political extremism and populism in the wake of economic integration Providing a more realistic historical understanding of European integration this book will be of interest to students and scholars of political science history and European studies

The Search for Normality Stefan Berger, 2003 The author follows the debates beyond the unexpected unification of the country in 1989 90 and analyses the most recent

trends in German historiography hoping that it doesn't return to the stifling homogeneity that characterized it before the 1960s

A Cultural History of Work in the Early Modern Age Bert De Munck, Thomas Max Safley, 2020-09-17 Winner of the 2020 PROSE Award for Multivolume Reference Humanities

In the early modern age technological innovations were unimportant relative to political and social transformations. The size of the workforce and the number of wage dependent people increased due in large part to population growth but also as a result of changes in the organization of work. The diversity of workplaces in many significant economic sectors was on the rise in the 16th century: family farming, urban crafts and trades, and large enterprises in mining, printing and shipbuilding. Moreover, the increasing influence of global commerce, as accompanied by local and regional specialization, prompted an increased reliance on forms of under compensated and non compensated work which were integral to economic growth. Economic volatility swelled the ranks of the mobile poor who moved along Europe's roads seeking sustenance, and the endemic warfare of the period prompted young men to sign on as soldiers and sailors. Colonists migrated to Europe's territories in the Americas, Africa and Asia while others were forced overseas as servants, convicts or slaves. The early modern age proved to be a renaissance in the political, social and cultural contexts of work which set the stage for the technological developments to come.

A Cultural History of Work in the Early Modern Age presents an overview of the period with essays on economies, representations of work, workplaces, work cultures, technology, mobility, society, politics and leisure.

Kierkegaard and Political Theory Armen Avanessian, Sophie Wemmerscheid, 2014-11-21

Søren Kierkegaard's radical protestant philosophy of the individual in which a person's leap of faith is favored over general ethics has become a model for many contemporary political theorists. Thinkers such as Slavoj Žižek and Alain Badiou have drawn on its revolutionary spirit to position truth above the constraints of political systems. In *Kierkegaard and Political Theory*, contributors from a wide range of disciplines including theology, sociology, philosophy and aesthetics examine just how crucial Kierkegaard's anti institutional thinking has been to such efforts and to modernity as a whole. The contributors convincingly position Kierkegaard's radical philosophy as the starting point for contemporary political theory. They show how he pioneered a modernity defined as an argument, an experience of the impossibility of rationally comprehending a system of thinking. They show how religious and aesthetic experiences function as a response to this impossibility, how their coherence in politics must always be questioned, especially in history's extreme example: totalitarianism. Engaging this and many other subjects, they provide a compelling new line in Kierkegaard studies that illuminates new contours of our political thought.

Armen Avanessian is founder of the research platform Speculative Poetics at the Free University Berlin. Sophie Wemmerscheid is professor of Scandinavian Studies at the University of Ghent.

Public Sphere and Religion Carl Antonius Lemke Duque, 2020-11-17

die beiden großen Schlüsselthemen öffentliche Bildung und universitäre Forschung Die im vorliegenden Band versammelten
Beiträge beleuchten schlaglichtartig einige ausgewählte Aspekte in diesem weiten Feld vom Ende des 18. Jahrhunderts bis in
die Gegenwart The relationship between the public sphere and religion is one of the great classics of the history of
humanities To this day it has lost none of its topicality Sociologists and political scientists continue to refer with great
frequency to a return of religions to the public sphere In the course of secularization globalization and digitalization modern
public spheres and religions find themselves in an increasingly complex web of mutual transformation Public education and
university research represent two key issues of this intensive interrelation The contributions collected in the present volume
illuminate selected aspects of this broad field from the end of the 18th century to the present **Theatre, Sacrifice,
Ritual: Exploring Forms of Political Theatre** Erika Fischer-Lichte, 2007-05-07 In this fascinating volume acclaimed
theatre historian Erika Fischer Lichte reflects on the role and meaning accorded to the theme of sacrifice in Western cultures
as mirrored in particular fusions of theatre and ritual Theatre Sacrifice Ritual presents a radical redefinition of ritual theatre
through analysis of performances as diverse as Max Reinhardt's new people's theatre the mass spectacles of post
revolutionary Russia American Zionist pageants the Olympic Games In offering both a performative and a semiotic analysis of
such performances Fischer Lichte expertly demonstrates how theatre and ritual are fused in order to tackle the problem of
community building in societies characterised by loss of solidarity and disintegration and exposes the provocative connection
between the utopian visions of community they suggest and the notion of sacrifice This innovative study of twentieth century
performative culture boldly examines the complexities of political theatre propaganda and manipulation of the masses and
offers a revolutionary approach to the study of theatre and performance history
