The American Military Mission to China, 1941-1942 William G. Grieve, 2014-01-23 This is an overview of America's first effort in military aid to a foreign sovereign nation at a time when Europe was engaged in open warfare Asia was facing a series of military confrontations and most of the world thought global conflagration was inevitable The work offers insight into the impact of war in Burma a backwater of World War II and examines events that result when great powers go to great lengths to further their own goals The work also examines disagreements among China the United Kingdom the United States and Japan and shows the evolution of aid provision to another country and changing expectations as new information arises

China's Role in World Affairs Michael B. Yahuda, 2025-03-03 First published in 1978 China's Role in World Affairs analyses China's foreign policy within a framework suggested by the conceptualisation of the outside world and China's place within it as articulated and acted upon by China's leaders Divided into two parts the book discusses China's role as an ally of the Soviet Union and as an independent socialist system following the Sino-Soviet rupture The main operational concepts and themes of China's foreign policy are also traced Of particular interest is the conflict between those leaders in the early 1960s who still believed that China should be linked with the Soviet Union and those who like Mao thought of China's role as an independent socialist country leading an internationalist united front against the superpowers Examination is made of the origin and place of the Third World states in China's global perspectives This is the first book to trace the development of the Chinese theory of the three worlds and to show its importance for the Chinese conception of a new world order

[The Sino-American Alliance](#) John W. Garver, 2015-06-03 This study provides an analysis of the role the United States alliance with Nationalist China played in US strategy to contain first the Sino-Soviet alliance and then China during the 1950s and 1960s

Sino-American Relations, 2004 **Emperor Hirohito and Showa Japan** Stephen Large, 2013-01-11 Emperor Hirohito reigned for more than sixty years yet we know little about him or the part he really played in the turbulent history of Showa Japan Stephen Large draws on a wide range of Japanese and Western sources in his study of Emperor Hirohito's political role in Showa Japan 1926-89 This analysis focuses on key events in his career such as the extent to which he bore responsibility for Japanese aggression in the Pacific in 1941 and explains why Hirohito remains such a contested symbol in Japanese post-war politics

An American Missionary in China Yu-ming Shaw, 2020-03-23 This work traced the career of a seminal figure in twentieth-century Chinese-American relations John Leighton Stuart began his work in China as a missionary in 1904 He moved on to head Yenching University the leading Christian institution of higher learning in China During the Pacific War Stuart was imprisoned by the Japanese When General George C. Marshall was sent to China by President Truman in 1945 to mediate peace between the Chinese Nationalists and the Chinese Communists Marshall chose Stuart as Ambassador to help with that mediation and to look after American interests in China Stuart was the last to hold that post before the Chiang Kai-shek government's move to Taiwan Shaw's research among materials in

English Chinese and Japanese has produced a richly detailed examination of each phase of Stuart's life. Shaw presents Stuart as a Wilsonian idealist whose combination of liberal situational values and nationalistic vision put him square in the middle, unable fully to support a Nationalist-led China and positing instead a Nationalist-Communist coalition that would favor the Nationalists and open the door to American influence.

At the President's Pleasure Sally K. Burt, 2015-05-26 At the President's Pleasure offers a new perspective on the way the United States and China interacted during World War II. Sally K. Burt examines President Franklin Roosevelt's methods of conducting diplomacy, particularly his tendency to centralise foreign policy making into his own hands as it applied to wartime Sino-US relations. By critiquing the president's foreign policy leadership with China, Burt provides a new perspective on US diplomacy and opens the door for further exploration of contemporary methods of conducting relations between the US and China. This book then will interest scholars, historians, international relations specialists and practitioners and those interested in global politics both historical and in the present day.

The United States and China Dong Wang, 2021-07-28 Now fully revised and updated, *The United States and China* offers a comprehensive synthesis of US-Chinese relations from initial contact to the present. Balancing the modern 1784-1949 and contemporary 1949-present periods, Dong Wang retraces centuries of interaction between two of the world's great powers from the perspective of both sides. She examines state-to-state diplomacy as well as economic, social, military, religious and cultural interplay within varying national and international contexts. As China itself continues to grow in global importance, so too does the US-Chinese relationship, and this book provides an essential grounding for understanding its past, present and possible futures.

Terasaki Hidenari, Pearl Harbor, and Occupied Japan Roger B. Jeans, 2009-01-01 This book sheds light on Japanese intelligence and propaganda activities in the United States prior to Pearl Harbor. Japanese attempts to use American isolationists and pacifists in 1941 and Japanese and American efforts to save Emperor Hirohito from being tried as a war criminal during the US occupation of Japan. It utilizes the American cracking of the Japanese diplomatic code, FBI surveillance and wiretapping records and the personal papers of Americans with whom Terasaki Hidenari had contact to conclude that he wanted peace between the United States and Japan in 1941 and worked to preserve the imperial institution following the war.

Anglo-American Strategic Relations and the Far East, 1933-1939 Greg Kennedy, 2013-01-11 This volume charts how the national strategic needs of the United States of America and Great Britain created a parallel but not joint relationship towards the Far East as the crisis in that region evolved from 1933-39. In short, it is a look at the relationship shared between the two nations with respect to accommodating one another on certain strategic and diplomatic issues so that they could become more confident of one another in any potential showdowns with Japan.
