From Sister X and the Victims of Foul Play Carlene Hatcher Polite, 1978 Sister X and the Victims of Foul Play ...
Carlene Hatcher Polite, 1975-01-01 **The Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential **Black Women Novelists and the Nationalist Aesthetic** Madhu Dubey, 1994-05-22 Focus on the works of Toni Morrison Gaye Jones and Alice Walker *A History of the African American Novel* Valerie Babb, 2017-07-31 This History is intended for a broad audience seeking knowledge of how novels interact with and influence their cultural landscape Its interdisciplinary approach will appeal to those interested in novels and film graphic novels novels and popular culture transatlantic blackness and the interfacing of race class gender and aesthetics **From Harlem to Paris** Michel Fabre, 1991 This academic study uses accounts from more than 60 African American writers Countee Cullen James Baldwin Chester Himes et al to explain why they were more readily accepted socially in Paris than in America Fabre The Unfinished Quest of Richard Wright shows that French black American affinity started in pre Civil War

New Orleans and not as the title suggests in Harlem when illegitimate mulattos with inheritances from French slave owners sent their children to Paris to be educated The book concludes that acceptance and appreciation of black Americans were based largely of French distaste both for white Americans whom the French found egotistical and for black Africans with whom the French had a bitter mutual colonial history Modern American Counter Writing A. Robert Lee,2010-01-21 The dissident voice in US culture might almost be said to have been born with the territory Its span runs from Roger Williams to Thoreau Anne Bradstreet to Gertrude Stein Ambrose Bierce to the New Journalism The Beats to the recent Bad Subjects cyber crowd This new study analyses three recent literary tranches in the tradition a re envisioning of the whole Beat web or circuit a consortium of postwar outrider voices Hunter Thompson to Frank Chin Joan Didion to Kathy Acker and a latest purview of what all too casually has been designated ethnic writing The aim is to set up and explore these different counter seams of modern American writing those which sit outside or at least awkwardly within agreed literary canons

Southscapes Thadious M. Davis,2011 In this innovative approach to southern literary cultures Thadious Davis analyzes how black southern writers use their spatial location to articulate the vexed connections between society and environment particularly under segregation and its legacies *Black Writers Abroad* Robert Coles,2018-10-26 Originally published in 1999 *Black Writers Abroad* puts forward the theory that African American literature was born partially within the context of a people and its writers who lived for the most part in slavery and bondage prior to the Civil War It is an in depth study of black American writers who left the United States as expatriates The book discusses the people that left where they went why they left and why they did or did not return from the nineteenth century to the twentieth century It seeks to explain the impact exile had upon these authors literary work and careers as well as upon African American literary history **Black Post-Blackness** Margo Natalie Crawford,2017-05-12 A 2008 cover of *The New Yorker* featured a much discussed Black Power parody of Michelle and Barack Obama The image put a spotlight on how easy it is to flatten the Black Power movement as we imagine new types of blackness Margo Natalie Crawford argues that we have misread the Black Arts Movement s call for blackness We have failed to see the movement s anticipation of the new black and post black Black Post Blackness compares the black avant garde of the 1960s and 1970s Black Arts Movement with the most innovative spins of twenty first century black aesthetics Crawford zooms in on the 1970s second wave of the Black Arts Movement and shows the connections between this final wave of the Black Arts movement and the early years of twenty first century black aesthetics She uncovers the circle of black post blackness that pivots on the power of anticipation abstraction mixed media the global South satire public interiority and the fantastic
