Site Planning For Cluster Housing:

Site Planning for Cluster Housing Richard K. Untermann, Robert Small, 1977
Richard Untermann, Robert Small, 1977-01-01 **Site Planning** Jeremy Pike, 1977 *The Subdivision and Site Plan Handbook* David Listokin, 2017-09-04

The Supreme Court decision that property owners may be entitled to compensation for government regulations that deprive them of reasonable use of their property has thrown the land use field into a state of turmoil. Will municipal land use ordinances be found excessive? What regulations can be considered a reasonable exercise of police power for public health safety and welfare? Will municipalities be liable for compensation to property owners if development is restricted? How can municipalities and developers plan in the wake of this decision? Ordinance provisions cover components of subdivision regulation: general provisions, definitions, administration, procedure, design, and improvements; off tract improvements; and documents to be submitted. *The Subdivision and Site Plan Handbook* provides a narrative on the background, rationale, and intent of each requirement. Accompanying the model ordinance gives an overview of the history of subdivision regulation in the United States, traces the evolution of land use regulation through various stages, and presents the legal context for present day regulation. The book has been designed for use by government administrators, developers, planners, attorneys, and others interested in land use regulation. The model ordinance represents the most current thinking about land use and site control and responds to questions raised by the Supreme Court decision. David Listokin and Carole Walker's analyses are flexible, efficient, responsive to local conditions, and balance regulatory costs and benefits. This is a definitive and invaluable resource.

A Guide to Land Use and Public Transportation for Snohomish County, Washington Snohomish County Transportation Authority, 1989 **An Annotated Bibliography on Planning and Management for Urban-suburban Wildlife** Daniel L. Leedy, 1980 *A Guide to Site Planning and Landscape Construction* Harvey M. Rubenstein, 1996-04-12

For practitioners and students in architecture, landscape architecture, planning, and civil engineering, *A Guide to Site Planning and Landscape Construction* offers an indispensable and authoritative reference. FWS/OBS., 1978 **Task Force on Assisted Housing** United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Housing and Community Development. Task Force on Assisted Housing, 1978 *Site Planning and Design for the Elderly* Diane Y. Carstens, 1993-02-15

Design for the elderly is at the forefront of architectural topics today. Yet while much has been written about the design of indoor spaces, little work has been done on planning outdoor spaces to accommodate the needs of the elderly. *Site Planning and Design for the Elderly* specifically addresses this issue, drawing from a large body of original research, current knowledge, and theory to provide the background knowledge and specific information necessary for informed decision making throughout the site planning and design process. More than just a reference on accessibility standards, this volume offers key insights into the needs and concerns of older people in the built environment and presents guidelines and alternatives for responsive site planning and design. Organized in a clear step by

step format for easy reference issues and specific guidelines are provided for each stage of the planning and design process within the context of housing for older people Moreover architects landscape architects urban designers developers and students will find the topics covered applicable to other settings where older people are a part of the user profile such as downtown renewal hospital and park planning projects Numerous illustrations and case studies highlight major points throughout the text The first sections of this volume provide valuable background information on housing options available to seniors and outline design implications of the social and physiological changes associated with advancing age Critical design and management issues are discussed objectives are outlined and implementation strategies are developed including methods for promoting wayfinding enhancing personalization and maximizing opportunities for social interaction The body of this volume provides specific guidelines for each stage of development Site planning areas addressed include site selection the layout of housing units including relationships between facilities offering different levels of care recreational amenities and circulation systems Detailed guidelines for the location spatial configuration detailing and amenities of major site components and recreational facilities are also provided Entryways parking patios rooftop developments and gardening centers are among the specific areas covered A brief outline of the major issues affecting use of each site component is particularly useful for making decisions regarding facility provision and for prioritizing development alternatives Critical detailing and amenity specifications are pinpointed and thoroughly described Paving materials signage lighting site furniture and pedestrian street crossings are among those elements examined A concise overview in tabular form of the major guidelines presented throughout closes this practical volume It is possible to design a site that will not only enhance the lives of elderly residents but will be cost effective and highly marketable as well Site Planning and Design for the Elderly provides practical solutions to the problems of exterior design for one of the fastest growing segments of the U S population today
