Sixth Sense Individualism In French Poetry 1686 1760:

The Sixth Sense Robert Finch, 1966 French Individualist Poetry 1686-1760 Robert Finch, Eugène Joliat, 1971-12-15

This anthology has a double aim to present a body of poetry none of it easily available some of it never before reproduced and to point up a particular trend until now nearly lost sight of in the maze of generalizations about eighteenth century French poetry This trend called individualist in contradistinction to the academic and universalist trends of the century has been chosen since it is the least known and most original of the three The individualist poets are avowed moderns and their attitude toward poetry and their concept of its nature often anticipate attitudes held by our poets of our own time There has not been available to this point a sufficiently representative body of poems by these poets a gap that Professors Finch and Joliat have attempted to fill with their anthology Readers will find the notes to the poems especially useful since many of them provide out of the way background material and as well offer new insights into the poetry of the individualist poets as a group

Profiles in Canadian Literature 7 Jeffrey M. Heath, 1991-09-01 *Profiles in Canadian Literature* is a wide ranging series of essays on Canadian authors Each profile acquaints the reader with the writer's work providing insight into themes techniques and special characteristics as well as a chronology of the author's life Finally there is a bibliography of primary works and criticism that suggests avenues for further study I know of no better introduction to these writers and the studies in question are full of basic information not readily obtainable elsewhere *U of T Quarterly* *Literary and Linguistic Theories in Eighteenth-century France* Edward Nye, 2000 Linguistic theories in the eighteenth century are also theories of literature and art and it is probably better therefore to think of them as aesthetic theories As such they are answers to the age old question what is beauty but formulated also to respond to contemporary concerns Edward Nye considers a wide range of authors from these two perspectives and draws the following conclusions etymology is a theory of poetry dictionaries of synonymy prosody and metaphor are theories of preciousness and Sensualism is a theory of artistic representation

The Sixth Canon Barbara Warnick, 1993 Traces the influence of Cartesian psycho physiology the British empiricism on British rhetoricians of the late eighteenth century **The Poetry of Francisco de la Torre** John Gethin Hughes, 1982-12-15 Francisco de la Torre has long been praised as an outstanding poet in the mould of Garcilaso de la Vega and his simplicity of style and soft gentle Arcadian environment of his poetry have been emphasized In this volume Professor Hughes attempts to define more accurately the position of Francisco de la Torre's verse in the evolution of Spanish poetry in the sixteenth century revealing that Torre's vision of the pastoral world and his poetic language show him to be a transitional poet of considerable quality and substance and not merely an imitator of Garcilaso Hughes demonstrates that while some of Torre's poetry follows a general pastoral pattern his descriptions are characterized by a sense of movement through a shifting perspective and that even in poems with a traditional pastoral setting the descriptions sometimes negate the pastoral qualities The author also shows that Torre rather than looking back towards Garcilaso and his contemporaries is already

anticipating especially in his stylistic technique and in his view of nature the attitude of the seventeenth century *Theatre in French Canada* Leonard E. Doucette, 1984-12-15 It is only recently that historians of the theatre in French Canada have turned their attention to playwrights active before the twentieth century Their practice had been to trace the roots of theatre to mid 1930s to the appearance of Father Emile Legault and his troupe the Compagnons de Saint Laurent dismissing what had gone before In this innovative history Leonard Doucette sets out deal for the first time with all plays that have survived to 1867 and to link them with the evolution of politics institutions and culture in French Canada The study of theatre has often been handicapped also by the outdated practice of defining the literary cultural history of a nation by identifying the masterpieces produced in specific periods and then defining other works in terms of what they are not The surprisingly rich and varied history of theatrical forms in French Canada has just begun to receive the attention it deserves from scholars Some of the texts and authors referred to in this history are identified for the first time the materials cited and conclusions drawn are based upon original research in major Canadian libraries as well as the works of published critics and historians The result is an excellent introduction to the various forms theatre has taken and the problems it has encountered in French Canada *Literary History of Canada* Carl F. Klinck, Alfred G. Bailey, Claude Bissell, Roy Daniells, Northrop Frye, Desmond Pacey, 1976-12-15 Hailed as a landmark in Canadian literary scholarship when it was originally published in 1965 the Literary History of Canada is now being reissued revised and enlarged in three volumes This major effort of a large group of scholars working in the field of English language Canadian literature provides a comprehensive up to date reference work It has already proven itself invaluable as a source of information on authors genres and literary trends and influences It represents a positive attempt to give a history of Canada in terms of writings which deserve attention because of significant thought form and use of language Volume 3 has been newly written for this edition of the History and covers the years from about 1960 to 1974 The contributors to this volume are Claude Bissell Desmond Pacey Lauriat Lane jr Michael S Cross Thomas A Goudge John Webster Grant John H Chapman William E Swinton Henry B Mayo Malcolm Ross Brandon Conron Clara Thomas Sheila A Egoff John Ripley William H New George Woodcock and Northrop Frye *The Idea of Decadence in French Literature, 1830-1900* A.E. Carter, 1978-12-15 The cult of decadence is usually dismissed as an eccentricity of French literature a final twitter of Romantic neurosis convulsing the lunatic fringe of letters during the last third of the nineteenth century However the nineteenth century s preoccupation with decadence provides us with a key to the secret places of its thought to all the obscure passages and backstairs behind the triumphant facade Between 1814 and 1914 there was no sense of disaster no tragic sense Civilization had become a habit a side product of political constitutions and applied science History was viewed pragmatically of what use were such traditional symbols as throne and altar Both are essentially propitiatory evidence of man s uneasy knowledge that power is dangerous and destiny implacable And both seemed anachronisms in a world where it was thought human reason had solved or would solve all the old problems The theory of

decadence is very largely a protest against this comfortable belief Had the decadents not written we should hardly suspect that the nineteenth century suffered from the same doubts and hesitations as all other ages before and since **Writers**
