theoretical formulations of tantric yoga It explains Abhinavagupta s teaching about the nature of ultimate reality about the methods for experiencing this ultimate reality and about the nature of the state of realization a condition of embodied enlightenment The author uncovers the conceptual matrix surrounding the practices of the Kaula lineage of Kashmir Shaivism The primary textual basis for the book is provided by Abhinavagupta s Par tr ik laghuv tti a short meditation manual that centers on the symbolism of the Heart mantra SAU *Archaeologies of the Heart* Kisha Supernant,Jane Eva Baxter,Natasha Lyons,Sonya Atalay,2020-02-13 Archaeological practice is currently shifting in response to feminist indigenous activist community based and anarchic critiques of how archaeology is practiced and how science is used to interpret the past lives of people Inspired by the calls for a different way of doing archaeology this volume presents a case here for a heart centered archaeological practice Heart centered practice emerged in care based disciplines such as nursing and various forms of therapy as a way to recognize the importance of caring for those on whom we work and as an avenue to explore how our interactions with others impacts our own emotions and heart Archaeologists are disciplined to separate mind and heart a division which harkens back to the origins of western thought The dualism between the mental and the physical is fundamental to the concept that humans can objectively study the world without being immersed in it Scientific approaches to understanding the world assume there is an objective world to be studied and that humans must remove themselves from that world in order to find the truth An archaeology of the heart rejects this dualism rather we see mind body heart and spirit as inextricable An archaeology of the heart provides a new space for thinking through an integrated responsible and grounded archaeology where there is care for the living and the dead acknowledges the need to build responsible relationships with communities and with the archaeological record and emphasize the role of rigor in how work and research is conducted The contributions bring together archaeological practitioners from across the globe in different contexts to explore how heart centered practice can impact archaeological theory methodology and research throughout the discipline *The Heart of California* Aaron Gilbreath,2020-11 2022 Oregon Book Award Finalist A vivid journey through California s vast rural interior The Heart of California weaves the story of historian Frank Latta s forgotten 1938 boat trip from Bakersfield to San Francisco with Aaron Gilbreath s trip retracing Latta s route by car during the 2014 drought Latta embarked on his journey to publicize the need for dams and levees to improve flood control Gilbreath made his own trip to profile Latta and the productive agricultural world that damming has created in the San Joaquin Valley to describe the region s nearly lost indigenous culture and ecosystems and to bring this complex yet largely ignored landscape to life The Valley is home to some of California s fastest growing cities and by some estimates produces 25 percent of America s food The Valley feeds too many people and is too unique to be ignored To understand California you have to understand the Valley Mixing travel writing historical recreations western history natural history and first person reportage The Heart of California is a road trip narrative about this fascinating region and its most important early documentarian Cardiac Nursing Debra K.
