Books in Print ,1994 English Language Education in Southeast Asia: Problems and

Possibilities (Penerbit USM) Ruanni Tupas, Shantini Pillai, Ramesh Nair, 2016 This book addresses the problems and possibilities of English language education in Southeast Asia from the point of view of researchers who are themselves also English language teachers. The researchers are from Malaysia, Indonesia, Philippines, Singapore, and New Zealand. The articles in this edited book examine teaching and language learning goals in relation to the desired development of linguistic knowledge. More importantly, the articles also reflect on the nurturing of appropriate learning abilities and independent thinking that is framed by the expanding learner awareness of identity, culture, and society within and beyond the classroom. Ultimately, the book tackles issues that emerge from the fact that we teach and learn English in a region that is hugely multicultural and multilingual.

Manpower, 1975 [Brick by Brick](#) Kjell Fenn, 2024-09-10 New or inexperienced teachers enter classrooms brimming with passion but often face challenges in engaging students, managing behavior, and developing effective lessons. Using research-supported strategies, author Kjell Fenn guides new teachers through four pillars of successful teaching: planning, structure, engagement, and confidence. Learn how to design assessments, craft lesson plans, and find the structure for students and teachers to experience joy in the classroom. K-12 new and beginning teachers will explore the dynamics of student engagement with sixteen strategies to promote interest. Bolster confidence through structured classroom routines. Create lessons that engage students while satisfying standards and objectives. Design quality assessments and plan units with confidence. Collect data on their classroom management and continuously refine their teaching methods.

, 1997 **Remediation in Medical Education** Adina Kalet, Calvin L. Chou, 2013-11-26 Remediation in medical education is the act of facilitating a correction for trainees who started out on the journey toward becoming excellent physicians but have moved off course. This book offers an evidence-based and practical approach to the identification and remediation of medical trainees who are unable to perform to standards. As assessment of clinical competence and professionalism has become more sophisticated and ubiquitous, medical educators increasingly face the challenge of implementing effective and respectful means to work with trainees who do not yet meet expectations of the profession and society. **Remediation in Medical Education: A Mid Course Correction** describes practical, stepwise approaches to remediate struggling learners in fundamental medical competencies; discusses methods used to define competencies and the science underlying the fundamental shift in the delivery and assessment of medical education; explores themes that provide context for remediation, including professional identity formation and moral reasoning; verbal and nonverbal learning disabilities; attention deficit disorders in high-functioning individuals; diversity and educational and psychiatric topics; and reviews system issues involved in remediation, including policy and leadership challenges and faculty development.
