Student Agency and Self-Formation in Higher Education Yusuf Ikbāl Oldac, Lili Yang, Soyoung Lee, 2023-11-28. This edited volume argues for positioning students at the centre of higher education, drawing from the concepts of student agency and self-formation. The volume highlights that higher education has broader and more important purposes than what a neoliberal human capital approach would suggest and explores how students exercise their agency and realise self-formation as inherently connected concepts throughout university education. With disciplinary, cultural, and contextual diversity, this volume will provide international perspectives to readers interested in higher education theories, policies, and practices.
