Sociology Of Law Critical Approaches To Social Control:

The Sociology of Law Brian E. Burtch, 1992 Routledge Handbook of Critical Criminology Walter S. DeKeseredy, Molly Dragiewicz, 2018-04-09 The main objective of the second edition of the Routledge Handbook of Critical Criminology is twofold 1 to provide original chapters that cover contemporary critical criminological theoretical offerings generated over the past five years and 2 to provide chapters on important new substantive topics that are currently being studied and theorized by progressive criminologists Special attention is devoted to new theoretical directions in the field such as southern criminology queer criminology and green criminology The diverse chapters cover not only cutting edge theories but also the variety of research methods used by leading scholars in the field and the rich data generated by their rigorous empirical work In addition some of the chapters suggest innovative and realistic short and long term policy proposals that are typically ignored by mainstream criminology These progressive strategies address some of the most pressing social problems facing contemporary society today which generate much pain and suffering for socially and economically disenfranchised people The new edition of the Handbook is a major work in redefining areas within the context of international multidisciplinary critical research and in highlighting emerging areas such as human trafficking Internet pornography and image based sexual abuse It is specifically designed to be a comprehensive resource for undergraduate and postgraduate students researchers and policymakers *City of Order* Michael Boudreau, 2012-05-15 Interwar Halifax was a city in flux a place where citizens debated adopting new ideas and technologies but agreed on one thing modernity was corrupting public morality and unleashing untold social problems on their fair city To create a bulwark against further social dislocation citizens policy makers and officials modernized the city's machinery of order courts prisons and the police force and placed greater emphasis on crime control These tough on crime measures Boudreau argues did not resolve problems but rather singled out ethnic minorities working class men and female and juvenile offenders as problem figures in the eternal quest for order

The Sociology of Law A. Javier Treviño, 1998 This revised and updated bibliography contains approximately 500 extra references a new chapter on feminist jurisprudence and an expanded glossary almost doubling the size of the work from the original 1994 version Trials of Labour Brian E. Burtch, 1994 Brian Burtch looks at contemporary midwifery practice in Canada and the role of the state in shaping and defining that practice He examines the qualifications of midwives and discusses their legal status the legacy of competition between nurses and midwives and the impact of legal actions concerning midwifery practice He emphasizes the pivotal role of the state in supporting midwifery and discusses the difficulties created by increasing interest in midwifery among expectant women and the social forces that inhibit the establishment of a self governing midwifery profession *Doing Justice without the State* Ogbonnaya Oko Elechi, 2006-07-25 This study examines the principles and practices of the Afikpo Eugbo Nigeria indigenous justice system in contemporary times Like most African societies the Afikpo indigenous justice system employs restorative transformative and communitarian

principles in conflict resolution This book describes the processes of community empowerment participatory justice system and how regular institutions of society that provide education social and economic support are also effective in early intervention in disputes and prevention of conflicts *Criminal Injustice* Robynne Neugebauer,2000-01-01 This volume examines racism within the process of criminal justice In every society criminal justice plays a key role establishing social control and maintaining the hegemony of the dominant economic classes The contributors to this anthology argue that the differential treatment of people of colour and First Nations peoples is due to systemic racism within all levels of the criminal justice system which serves these dominant classes Ideological and cultural changes are preconditions for the success of anti racist policies and practices within the criminal justice system and within other state institutions Recommendations for transformations in justice policy and practice are provided **When Justice Is a Game** MaDonna Maidment,2021-01-10T00:00:00Z All too often the police do not get the right person Wrongful convictions are framed as mistakes or failures of the justice system However many of the wrongfully convicted are from among the poor and visible minority groups The law then becomes an ideological mask relieving us of the responsibility of engaging with the real issues that underscore wrongful convictions MaDonna Maidment illustrates how the desire to get a conviction and paint the police and the courts in a positive light often means that false evidence and court decisions based on prejudice and racism lead to innocent people being convicted The official version of the law says Maidment despite its claims of impartiality neutrality and objectivity is a tool of the state and its elite club members designed to maintain the illegitimate domination of society Turning back to the very sys tem that got it wrong in the first place therefore should be a non starter **Cases on Technologies for Teaching Criminology and Victimology: Methodologies and Practices** Sette, Raffaella,2009-09-30 Presents state of the art research and teaching into the study of corruption and those affected by it Analyzes the benefits and disadvantages of various teaching methodologies in universities police academies and crime victim services Sociology Of Law & Order Lynn Mcdonald,2019-08-22 This book is about the law and order issue and the role social scientists have played in legitimating it as a problem of grave social consequences It is a study on rising crime rates and criminal behaviour within the limits of conventional social science with its advantages and disadvantages
