Sociology Of Sex:

Sociology of Sex and Sexuality Gail Hawkes, 1996-03-16 A Sociology of Sex and Sexuality offers an historical sociological analysis of ideas about expressions of sexual desire combining both primary and secondary historical and theoretical material with original research and popular imagery in the contemporary context While some reference is made to the sexual ideology of Classical Antiquity and of early Christianity the major focus of the book is on the development of ideas about sex and sexuality in the context of modernity It questions the widespread assumption that the anxieties and fears associated with old sexual mores have been overcome in the late twentieth century context and asks whether the discourses of Queer sexual politics have successfully fractured the binary categories of heterosexuality and homosexuality A Sociology of Sex and Sexuality will be of interest to students in the fields of sociology sexual history gender studies and cultural studies

Webbed Connectivities Vrushali Patil, 2022-08-30 Constructing a new approach for centering empire in productions of racialized gendered and sexualized difference One of the oldest most persistent issues in gender and sexuality studies is the dominance of white northern theorizing and its consequences for what we know about sex gender and sexuality There is an ongoing neglect of the significance of histories of empire and coloniality particularly in U S sociology where the United States and its theoretical productions are routinely sanitized of such histories In *Webbed Connectivities* Vrushali Patil offers a global historical sociology that reembeds the United States within histories of empire situating the emergence of northern and U S based concepts and frameworks squarely within these histories *Webbed Connectivities* intercepts the political economy of knowledge production within the social sciences to argue for the work of centering the role of imperial hierarchies in knowledge production and circulation Patil develops a new approach webbed connectivities which tracks imperial processes and impacts across borders shifting from an emphasis on particular experiences and identities to the constitution and creation of the categories themselves A sociologist of feminist thought and gender and sexuality studies Patil explores the theoretical spaces that spotlighting imperial hierarchies within knowledge production might open including making productive and essential connections across sites of the global south and north
