

Karl Marx:

- 1818-1883
- Believed the structure of society is influenced by how its economy is organized.
- Believed society divided into 2 classes:
 - Bourgeoisie: capitalist/upper class
 - Owned the means of production...materials/goods used to produce goods/services.
 - Proletariat: workers
 - Provided labor needed to produce goods/services.

Sociology Of Marx:

The Sociology of Marx Henri Lefebvre, 1982 This classic study by Henri Lefebvre raises the question whether today we must study Marx as we study Plato or rather whether Marx's work retains a contemporary value and significance in other words whether his work contributes to an elucidation of the contemporary world For Lefebvre Marx's thought remains a key perhaps even the key to an understanding of modern societies and modern reality

Marxist Sociology Thomas Burton Bottomore, 1975-05

Karl Marx on Society and Social Change Karl Marx, 2013-07-19 This volume presents those writings of Marx that best reveal his contribution to sociology particularly to the theory of society and social change The editor Neil J Smelser has divided these selections into three topical sections and has also included works by Friedrich Engels The first section The Structure of Society contains Marx's writings on the material basis of classes the basis of the state and the basis of the family Among the writings included in this section are Marx's well known summary from the Preface of A Contribution to a Critique of Political Economy and his equally famous observations on the functional significance of religion in relation to politics The second section is titled The Sweep of Historical Change The first selection here contains Marx's first statement of the main precapitalist forms of production The second selection focuses on capitalism its contradictions and its impending destruction Two brief final selections treat the nature of communism particularly its freedom from the kinds of contradictions that have plagued all earlier forms of societies The last section The Mechanisms of Change reproduces several parts of Marx's analysis of the mechanisms by which contradictions develop in capitalism and generate group conflicts Included is an analysis of competition and its effects on the various classes a discussion of economic crises and their effects on workers and Marx's presentation of the historical specifics of the class struggle In his comprehensive Introduction to the selections Professor Smelser provides a biography of Marx identifies the various intellectual traditions which formed the background for Marx's writings and discusses the selections which follow The editor describes Marx's conception of society as a social system the differences between functionalism and Marx's theories and the dynamics of economic and political change as analyzed by Marx

Marxism Versus Sociology Martin Shaw, 1974 This is a partisan guide to reading It is intended to aid sociology students to work towards and within the tradition of marxism

Selected Writings in Sociology and Social Philosophy Karl Marx, 1963

Max Weber and Value Free Sociology John Lewis, 1975

Crisis and Change Today Peter Knapp, Alan Spector, 2011-01-16 Crisis and Change Today provides a solid introduction to Marxist social theory The work's unique voice is expressed in its Socratic dialogic approach structured around forty questions that students have about society and social change Topics range from theories of history economics unemployment racial oppression the state fascism the collapse of the Soviet bloc and points of convergence and difference between the dialectical approach and other approaches to social science The content and tone of the work invites students to evaluate various traditional and current explanations of social institutions and social processes and encourages them to weigh the debates and

investigate further The first edition was very well received Distinguished Scholarship Award of the Section on Marxist Sociology of the ASA and the second edition has been thoroughly revised and updated to be relevant for students today Though the first edition was written during the wake of the fall of the Berlin Wall and the collapse of the Soviet Union the growing gap between the rich and the poor and the economic crisis have generated more interest in using Marxist analysis both as a tool to analyze and understand capitalism and the weaknesses of past Marxist praxis *The Sociology of Marx* Henri Lefèbvre, 1968 Understanding Classical Sociology John A Hughes, Wes Sharrock, Peter J Martin, 2003-03-18 Praise for the First Edition Totally reliable the authors have produced a book urgently needed by all those charged with introducing students to the classics quite indispensable Times Higher Education Supplement This is a fully updated and expanded new edition of the successful undergraduate text Providing a lucid examination of the pivotal theories of Marx Durkheim and Weber the authors submit that these figures have decisively shaped the discipline They show how the classical apparatus is in use even though it is being directed in new ways in response to the changing character of society Written with the needs of undergraduates in mind the text is essential reading for students in sociology and social theory **Marx and Mead** Tom Goff, 2014-08-13 It has often been suggested that a resolution of issues generated by the sociological study of ideas might be reached through a synthesis of specific insights to be found in the works of Karl Marx and George Herbert Mead The present study originated in an investigation of this hypothesis particularly as it bears on the central issue of sociological relativism The author began by delineating the specific problems such a synthesis might resolve and in the process became aware that the nature and depth of differences separating the sociology of knowledge and its critics have never been fully analysed or understood This volume therefore opens with a clarification of these differences a clarification which leads to considerable redefinition of the problem as it has traditionally been understood by critics and proponents of the discipline alike The author points out in particular that it is less a debate than a thorough going contradiction which characterizes the literature dealing with the inadequacies of various formulations of the sociology of knowledge In consequence the study of Marx and Mead presented here is not simply yet another effort to discover a perspective which will satisfy the particular demands of the critics Rather it argues that an adequate perspective fully consistent with the central insight of the discipline that knowledge is radically social in character is to be found in a synthesis of elements in the perspectives of Marx and Mead
