Sociology Theology And The Curriculum:

Sociology, Theology, and the Curriculum Leslie J. Francis, 2010-01-07 In this book theologians reflect on sociological methods explore social theories of the human agent and offer a theological transformation of sociology Spanning such developments as local non stipendiary ministries the identification of the roots of church growth and giving voice to gay and lesbian Christians this collection of innovative essays provides a fascinating and important dialogue on how the seemingly disparate fields of sociology and theology can illuminate and enrich one other This is essential reading for anyone concerned with the shifting dynamics of these two disciplines Empirical Theology in Texts and Tables Leslie J. Francis, Mandy

Robbins, Jeff Astley, 2009 Empirical theology offers fresh and stimulating insights into the concerns of both the Church and the Academy It does this by accessing relevant empirical evidence using the tools of the social sciences and placing this evidence in the context of theological critique and contemporary debate In this pioneering collection of focused essays leading experts of empirical theology illustrate key perspectives within this rapidly expanding discipline The first section of the book explores theoretical issues underpinning the main methods of obtaining empirical data and the use of these data within theology The other two sections display the role both of qualitative studies and of the analysis of quantitative data in exploring a range of theological beliefs and religious social and educational concerns Theology in a Social Context

Professor Robin Gill, 2013-06-28 Over the last 30 years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering Theology in a Social Context Theology Shaped by Society Society Shaped by Theology Theology in a Social Context argues that a sociological perspective properly understood can make an important contribution to theology Part I looks carefully at various objections raised by both theologians and sociologists maintaining instead that a proper understanding of social context is a prerequisite for effective theology Part II suggests that a sociological perspective offers crucial insights into resurgent forms of fundamentalism Part III offers a fresh account of social context in the modern world once thought by sociologists and theologians alike to consist simply of increasing secularization **Theology in the Public Square** Gavin D'Costa, 2008-04-15 This imaginative study

rethinks the nature of theology and its role in universities The author sketches out a fascinating project using examples from US and UK institutions whereby theology becomes a transformative force within universities Imagines what a Christian university in which all disciplines have been theologized would look like Feeds into discussions about the religious identity of denominationally linked colleges and universities Forms part of a wider attempt to imagine a vital public role for theology that enables it to serve both the Church and the wider community Restoring the Image Martyn Percy, Andrew

Walker, David Martin, 2001-03-01 David Martin is a world renowned sociologist and one of the most prominent sociologists of religion ever to have emerged from the British Isles. Noted for his work on secularization, Pentecostalism, the Church of England, and religious trends in general, his work has influenced the entire shape of a discipline that is now firmly established in many universities. This volume celebrates his 70th birthday and his substantial and varied contributions to the sociology of religion stretching over a 50 year period. Andrew Walker and Martyn Percy have collated and edited a collection of essays all freshly commissioned that evaluate Martin's work. Contributors include Bryan Wilson, Steve Bruce, Grace Davie, Graham Howes, Richard Fenn, Karel Dobbelare, Christie Davies, Robin Gill, Bernice Martin, and Kieran Flanagan. This timely and appreciative volume is essential reading for all who want to understand the shape of the discipline of the sociology of religion.

Religion in Education 4 William K. Kay, Leslie J. Francis, Keith Watson, 2003 The Foundation of Hope John R.

Elford, 2003-07-01 The Foundation of Hope is both a celebration and an analysis of the creation of Liverpool Hope University College in 1996 and of some of its achievements to date during an exciting period in British higher education. The central focus is the student experience at Hope University College. Contributors also examine the way that teaching and research in theology have developed over the years and the important community regeneration work Hope University College carries out in various areas of Liverpool.

Theology and Society in Three Cities Mark D Chapman, 2014-10-30 Oxford, Berlin, and Chicago were extraordinarily dynamic centres of theology during the nineteenth and early twentieth centuries. However, significant differences in the political climate and culture of each location bred strikingly divergent theological approaches in the universities of each city. Mark Chapman offers a highly original exploration of the subjection of their theologies to the changes and developments of educational policy and national and international politics, shedding light upon the constraints that such external factors have imposed upon the evolution of the discipline. Chapman highlights the efforts of theologians and churchmen to relate the true core of Christianity, a lived religion free of shibboleths, to their rapidly changing world. The opinions of conservative and liberal theologians are skilfully balanced to reveal the problems of critical history, of political authority, of increasing global awareness, and of the need for social amelioration, which profoundly shaped the ways in which theology was conceived during the period. New ground has been broken in this interdisciplinary study of the social, political, and ecclesiastical contexts of Western theology. This book will be invaluable to any reader interested in the use of theology as part of the wider quest for social integration and meaning in an increasingly fragmented society.

Predicting Religion

Grace Davie, Paul Heelas, Linda Woodhead, 2017-07-05 Religion in the contemporary west is undergoing rapid change. In *Predicting Religion*, twenty experts in the study of religion present their predictions about the future of religion in the 21st century, based on careful analysis of the contemporary religious scene, from traditional forms of Christianity to new spiritualities. The range of predictions is broad. A number predict further secularization, with religion in the west seen as being in a state of terminal decline. Others question this approach and suggest that we are witnessing not decline but

transformation understood in different ways a shift from theism to pantheism from outer to inner authority from God to self as god and above all from religion to spirituality This accessible book on the contemporary religious scene offers students and scholars of the sociology of religion and theology as well as interested general readers fresh insights into the future of religion and spirituality in the west Published in association with the British Sociological Association Study of Religion group in the Ashgate Religion and Theology in Interdisciplinary Perspective series **Contemporary Catholic Education** Michael A. Agbeti,2023-10-09 The training of African Christian ministers had been a matter of concern to the erstwhile International Missionary Council now merged with the World Council of Churches The reason was that it was believed by some critics that missionaries gave only low priority to theological training This book recounts how the missionaries actually trained the indigenous leaders in the mission fields The study covers the world of British German Swiss and American Protestant missionaries as well as that of two Roman Catholic orders in seminary training relating to Anglophone West Africa The value of the book is that its contents apart from filling a vacuum in the ecclesiastical history of West Africa will supply the factual basis upon which an objective evaluation can be given about the efforts of the Western missionary theological training until 1970
