Introduction to Philosophy for Medical Students and Other Busy People Niall McLaren,2012-01-01 During their careers many students become aware that lurking in the background there are complex and conceptually difficult questions that all too often their teachers either can't answer or can't even understand These are traditionally the questions addressed by philosophy and this little primer is the result of another student's journey over many years Niall McLaren MD has spent over three decades banging his head against the Really Difficult questions behind psychiatry and offers his a personal view of how these questions should be approached Very deliberately he simplifies the convoluted language and reasoning that set philosophers apart making it accessible to students of scientific fields in particular In this book you will gain a background in the following fields Religion and the origins of philosophy Mentalism antimentalism and behaviorism Epistemology as the study of knowledge itself Philosophy and the nature of science Philosophy and the nature of ethics Included is a glossary explaining some of the many isms that can be so daunting to non philosophers because philosophers too have their jargon but it is not meant to intimidate True it can be complex but the issues involved are complex The goal of this book is to show that with clear thinking the complexities need not be overwhelming This is one of the very few books I have every intention of reading several times in rapid succession It is such a bounty of iconoclastic observations emanating from an in depth acquaintance with psychiatry and a love of philosophy that no single reading can do it justice it just keeps giving Sam Vaknin PhD author of Malignant Self love Narcissism Revisited From Future Psychiatry Press www.FuturePsychiatry.com **This Is My Body** John T. Brittingham,Christina Smerick,2016-02-19 The body of Christ The body of the anorexic The altered body The mutilated body The Eucharist Canonical Western thought has had an uneasy relationship with the flesh from Plato forward Western philosophy has spent its time dwelling upon ideation perception cognition and recollection and has pursued de facto if not de jure a duality of mind and body that continues to this day Western theology has followed suit either viewing the body as humiliation prison or site of sin However movements in the twentieth century philosophical theological and scientific have all issued challenges to the longstanding tradition These challenges invite us to reconsider long held beliefs about cognition the body and human experience in the world In particular Wesleyan theology and philosophy are called to

B. B. Warfield's Scientifically Constructive Theological Scholarship David P. Smith, 2011-08-05 B B Warfield the Lion of Princeton is perhaps America's most prolific and preeminent biblical and theological scholar and yet he has been largely misunderstood and misrepresented In this landmark work David Smith penetrates to the defining features of Warfield's thought and helps us understand its revolutionary character Warfield's detractors have maligned his thought as static and beholden to an outdated epistemology yet Smith debunks this myth Placed within his historical context we discover Warfield expressing the organic and dynamic nature of truth overcoming the subject object dilemma that plagues Western epistemological rationalism and mysticism and all through his explaining the doctrinal system warranted by the Bible Theological scholarship and American church historiography will have to reckon with this fresh and much needed apologetic on America's preeminent apologist

Exodus (ESV Edition) Philip Graham Ryken, 2016-02-26 In this expository commentary on the book of Exodus Philip Graham Ryken mines the story of Israel's escape from Egypt for knowledge of God's character and instruction for his followers Theologically instructive and decidedly pastoral this commentary leads readers to rejoice at God's work in the life of every person who follows him on the path to spiritual freedom Ryken skillfully relates how the Israelites' deliverance from slavery anticipated the salvation accomplished in Jesus Christ proving that God remembers his covenant and always delivers on his promises For those who preach teach and study God's Word this book is more than just a commentary it is a celebration of God's faithfulness The book of Daniel abounds with powerful imagery showcasing God's unmatched glory and wise plan for the future In this accessible commentary pastor Rodney Stortz highlights the coming triumph of God's kingdom offering pastors and Bible teachers a resource to help them explain and apply Daniel's message to Christians today Stortz's careful exegesis and perceptive applications focus on personal holiness the wisdom and power of God and the importance of Daniel's prophecies concerning the Messiah and the Antichrist In addition this commentary looks to the New Testament to shed light on Daniel's prophecies about the future Part of the Preaching the Word series *An Honest Faith* Keith Mascord, 2025-02-06 *An Honest Faith* tackles the thorny question of whether Christian faith is compatible with the questing and questioning spirit of philosophy The author argues that a mutually productive friendship between Athens philosophy science and Jerusalem theology faith is possible and in fact necessary given that various forms of the faith resist questioning and therefore end up holding onto outdated unsupported and damaging beliefs for example on matters of gender and sexuality The author draws upon his own experiences in the conservative Anglican Diocese of Sydney and his teaching career in philosophy to issue a challenge to Christians to have an honest faith and not hold back from the quest for answers which lies at the heart of religion philosophy and science The book's first half which can be characterized as an exercise in faith deconstruction lays out a number of the more serious challenges to historic or traditional Christian faith while noting its rapid demise in Australia the US the UK and throughout the Western world The book's second half recommends a careful reconstruction or reformation of the faith Spinoza In English, A Bibliography Wayne Boucher, 1999-06-15 *Spinoza in English* is the first bibliography to document the entire 300 year record of books monographs dissertations and articles in English on Benedict Spinoza as well as all translations of his works into English Arranged alphabetically by author or editor and internally cross referenced in the case of anthologies and replies this bibliography cites its own sources where appropriate and in many cases provides details on how to obtain out of print titles and unpublished dissertations Additionally it restores or corrects a good deal of earlier bibliographic detail and beginning with titles from the mid 1800s presents the citations in a uniform style This second edition adds hundreds of citations including dozens of titles hitherto overlooked thus bringing the total to nearly 2700 on the main level with hundreds of secondary references to later editions and reprints It

also provides an index and occasionally an abstract when the author's title inadequately describes the contents. As the only source of its kind, this bibliography is an indispensable reference tool for research libraries and individual scholars concerned with the life and works of Spinoza. Wayne Boucher's introduction is augmented by a preface by Professor Manfred Walther, the most complete bibliography of works in English on Spinoza, enlarged, corrected, and improved from the first edition, with numbered entries, uniquely comprehensive current and authoritative numbered entries, and subject title index for easy reference.

Materialism and Dialectics in a Post-classical World Anil Rajimwale, 2021-11-05. Evolution of the concepts of atom and atomism and the impact of electromagnetism on our worldview is the object of our study in this book.

Electromagnetism is the key link in the transition from classical to post-classical worldview. This transition is caused by the one from our thought based upon the tangibles to that based upon the intangibles. Electromagnetism inaugurated an era of light speeds and near it, and of the world constituted by such speeds. Philosophy and the worldview need to catch up and undergo a basic change. Atom as a concept and reality is under severe stress as explanation of reality. Reality has come out of atomic limits and unveiled a new world which is constituted of quantum relativity, wave-particle duality, etc. It is a challenge to philosophy which is re-fashioning to interpret the post-classical world based on rapid motions. We need to develop new concepts and bring about a realignment in various thought constituents. Rather than overthrow matter, we are delving deeper into it. Philosophy and human thought itself stands on the brink of redefinition. In the present book, the author shows how electromagnetism connects classical with post-classical thought, creating new structures and impacting materialism and dialectics. IN THE EARLY YEARS of the twentieth century, according to the older people of today, many African American residents of Tidewater Maryland and Delaware would in late summer set aside their tools, leave their cornfields just when the tassels on each stalk turned golden and the tips of each blade changed from green to brown, abandon their tomatoes when a soft blush of red appeared on the hard green fruit, allow for a time their beans and sweet potatoes and melons to mature on their own, and make their way by horse and wagon, by car or by bus to a Methodist camp meeting to attend to their sacred work. Those who had moved to the nearby cities of Baltimore, Wilmington, or Philadelphia in search of the higher wages and the excitement that urban life seemed to offer, returned home by land or by water, traveling perhaps on

one of the ferries that plied the Chesapeake or Delaware bays from city to town from shore to shore and back again If the camp meeting was nearby some individuals families or groups of unrelated church members might attend nightly services and return home to sleep to work the next day perhaps but then steadfastly to make their way right back to that same camp meeting for the next night s service and the next until that camp meeting s final cathartic day During several of the old time country camp meetings however many would unhitch their horses arrange all the separate wagons into a circle around a wooden roofed tabernacle arch a sheet of canvas over each wagon and stay right there on the church ground for the duration of the meeting Women would bring baskets and cheese boxes filled to the brim with fried chicken home smoked ham biscuits cabbage and green beans Men and boys would dig up old pine stumps and pile them high on the campgrounds to be placed on fire stands and set ablaze to give light to each evening s spectacle In the heat of the summer when the ground might be parched and dust might billow when you couldn t even walk across the ground barefoot it was so hot everyone lived in the shade and everyone had a good time as one person recounted later For two weeks an intense but relaxed joyful communal laboring in the Spirit manifested itself in a day after day pattern of an exuberant testimony service followed by a rousing preaching service followed at last by a climactic regionally distinct Singing and Praying Band service During this latter service in a maneuver that scholars might refer to as a ring shout participants formed a circle with a leader in the center singing and clapping their hands stamping their feet and swaying their bodies all the while they slowly raised several hymns and spirituals to a raucous rejoicing shouting crescendo concluding the meeting with an ebullient march around the entire encampment Although these bands shocked some outsiders and reminded other observers of Africa committed participants considered them to be the foundation of the church Camp meetings were not unique to this area or to that time at the dawn of the twentieth century Drawn by the heady combination of religious salvation and spiritual democracy advocated in these festivals Americans of various backgrounds had been making such yearly treks to camp meetings for over a hundred years Those early meetings gave form to a religious movement attuned to the ethos of the new nation In the frontier areas of Tennessee and Kentucky where they began camp meetings sponsored by various Protestant denominations became temporary sacred cities places of equality of souls and social solidarity that tempered the struggle to survive in the wilderness In the states of the upper South and in Pennsylvania these meetings also thrived Here where the camp meetings were predominantly organized by Methodists both free and enslaved African Americans participated in large numbers along with English and German speaking European Americans Perhaps because of Methodism s original antislavery witness in Maryland for example this denomination received most of the black converts while in 1800 approximately one fifth of the Methodists in Virginia were black At the beginning of the nineteenth century white and black people alike frequently attended the same religious services though often in segregated and unequal seating arrangements Yet that century witnessed a complex and powerful movement to establish separate religious institutions for black Methodists First came the

effort to set up separate churches for Africans Eventually the Methodist Episcopal Church organized a separate conference for all black churches within its denomination A related movement led to the founding of independent African Methodist denominations Finally beginning before Emancipation but accelerating after freedom a similar but less remarked effort saw African American Methodists starting camp meetings of their own In the mid Atlantic region in particular these large outdoor African American religious events were the meetings that the grandparents and great grandparents of today s participants built and today s older people witnessed when young These camp meetings continue even in the twenty first century The camp meetings that the old soldiers of today recall were not unique they were merely one echo of the religious festivals that became a new secular democracy s first religious mass movement Yet the old timers of today recall above all other things those aspects of their camps that were unique That is they speak mostly about the Singing and Praying Bands for whom the camp meetings in this area became the primary regional showcases these bands made these meetings special They tell of the prayer meetings from which the camp meetings originated They speak also of the march around Jericho in which the Singing and Praying Bands led those at the camp meeting in a grand march around the entire campground on the final day of the meeting The Singing and Praying Bands of this area were special not just for the generations of participants in the African American camp meetings of the Atlantic coast states of the upper South The antecedents of the twentieth century bands seem to have played a clandestine but significant role in the development of African American culture in general Therefore the bands can stake a claim as important forces in the cultural and social history of America as a whole Here is how it happened At the end of the eighteenth century when enslaved Africans in this area began to take to Methodism in a big way the process of culture building by which Africans of various ethnic backgrounds began to transform themselves into one people was well underway Yet that process was still incomplete The new African American identity became consolidated throughout the South only during the first half of the nineteenth century when hundreds of thousands of enslaved Africans were traumatically sold from the states of the upper South to cotton growing areas of the Deep South In the eighteenth century prior to this mass transfer of human property there had been two primary centers of slavery on the Atlantic coast of North America coastal South Carolina and the Chesapeake Bay area The ethnic mix of Africans imported into the two areas differed somewhat leading to the possibility that the emerging African American cultures of these areas might also have differed Of these two centers the Chesapeake area had the larger number of slaves In 1790 of all thirteen states Virginia had the largest population of Africans with 305 493 people Maryland was second with 111 079 Virginia also had the largest number of enslaved Africans 292 627 while Maryland s enslaved population of 103 036 was third largest These two states also had the largest population of non slave Africans at the time In 1790 nearly 53 percent of the African population and 58 percent of the enslaved Africans in the country were in the upper South in the states of Virginia Maryland and Delaware The nearby black populations of southeastern Pennsylvania and southwestern New Jersey had extensive cultural ties to their

brethren in the upper South This area where the upper South meets the mid Atlantic states seems to have been one of several areas central to the formation of African American culture in the late eighteenth and early nineteenth centuries Among the Africans in America of that time for example those who lived in the mid Atlantic region and upper South were pioneers in building specifically black institutions In 1787 Richard Allen Absalom Jones and others founded a mutual aid organization in Philadelphia called the Free African Society initiating in the words of W E B DuBois the first wavering step of a people toward organized social life Numerous other grassroots benevolent and mutual aid organizations sprouted up at this time aiming to provide members financial assistance in case of sickness or death in the family Under the leadership of Richard Allen in Philadelphia a group of black Methodists established the Bethel African Church in that city in 1794 In 1816 Bethel joined ranks with other independent black Methodist churches in Pennsylvania New Jersey and Baltimore to form the African Methodist Episcopal A M E denomination In Wilmington the denomination called the Union Church of Africans was established just prior to the founding of the A M E Church Along with new institutions a distinctly African American expressive culture was emerging in the upper South and mid Atlantic region at the dawn of the nineteenth century In 1819 for example a white minister named John Fanning Watson who lambasted many Methodists for what he saw as excesses in their worship gave us one of the earliest reports of a specifically black religious song tradition writing that the coloured people get together and sing for hours together short scraps of disjointed affirmations pledges or prayers lengthened out with long repetition choruses In the same paragraph Watson s description of these sacred performances by black worshippers is strikingly evocative of outdoor singing circles that the Singing and Praying Bands continue to this day This account predates by over twenty five years the earliest known description of a ring shout from the Atlantic coast area of the Deep South Another writer a Quaker schoolboy from Westtown School outside Philadelphia described black worshippers at an outdoor camp meeting in 1817 marching around an outdoor tabernacle singing a spiritual chorus and blowing a trumpet in a reenactment of the march around Jericho by Joshua and the Israelites that is similar to the march that the Singing and Praying Bands continue to do today If we look at these historical references with minds informed by the bands of today we can project the current tradition to have been already thriving two hundred years ago in the early years of the nineteenth century This nascent African American expressive culture articulated new belief systems that were forming among Africans in this area also to a certain extent in the context of Protestant evangelism Africans in America developed a variant of this branch of Protestantism that expressed protonationalist African American identity According to this theology of resistance African American Christians began to associate their experience in America with that of the Israelites in Egypt and the person of Jesus took on some of the qualities of Moses who would not fail to liberate the enslaved It was to some extent in the religious meetings of the upper South and in the language of this distinctive African American perspective that Gabriel Prosser and Nat Turner situated their rebellions in Virginia Continues Excerpted from Together Let Us Sweetly Live by
