Soiuznoe Gosudarstvo:

Eurasia's Regional Powers Compared - China, India, Russia Shinichiro Tabata, 2014-12-17 Taking a long view and a wide perspective this book by Japan's leading scholars on Asia and Eurasia provides a comprehensive and systematic comparison of the three greatest powers in the region and assesses how far the recent growth trajectories of these countries are sustainable in the long run. The book demonstrates the huge impact on the region of these countries. It examines the population resource and economic basis for the countries' rise, considers political, social and cultural factors and sets recent developments in a long historical context. Throughout the different development paths of the three countries are compared and contrasted and the new models for the future of the world order which they represent are analysed. **Visions and**

Re-visions Robert M. Philmus, 2005-01-01 The former editor of *Science Fiction Studies* Robert M. Philmus now casts his expert eye on a diverse range of short stories and novels by the premier creators of science fiction including George Orwell, C. S. Lewis and Ursula LeGuin. With essays on such masters of the genre as Stanislaw Lem, Kurt Vonnegut and Philip K. Dick, the volume provides an in-depth textual examination of science fiction as a truly revisionary genre. *Visions and Revisions* will be of immense value to scholars of literature and science fiction studies. The CIS, the EU and Russia K. Malfliet, L.

Verpoest, E. Vinokurov, 2007-05-10 This book focuses on the difficulties facing Russia, Ukraine and Belarus with regard to their integration into both the CIS and the encroaching EU. It analyzes the links between the integration mechanisms of the CIS and EU and the various state policies towards and the elite interests in the territory of the former Soviet Union. *Hero Projects* Paul R. Josephson, 2024 In *Hero Projects* Paul R. Josephson traces how over the last one hundred years the Russian tsars, commissars and oligarchs embraced megaprojects to create the world's largest empire. Built by peasants, gulag prisoners and Communist volunteers, the projects are wide-ranging and numerous, including nuclear power stations, pipelines across the tundra, railroads from Europe to the Pacific Ocean and hydropower stations and canals. Sweeping in scope, *Hero Projects* establishes the strong continuities in political culture in Russian history, reshapes the meaning of empire, extending it to include internal colonization and expands environmental and social history through the study of big technology. **Law in**

Transition Ferdinand J.M. Feldbrugge, 2021-10-25 The states of Central and Eastern Europe have to different extents and with varying levels of success engaged in the transition from authoritarian rule. The reconstruction of democratic law-based governance has turned out to be a lengthy and at times frustrating process. The agenda for post-communist reform contains many entries yet a transition blue print is not available. The papers collected in this volume explore the implications of the transition process in various areas. While not all aspects of post-communist law are covered, several crucial issues receive an in-depth treatment. These are the development of supra-governmental systems, the procuracy, minority rights, contract law, land ownership and industrial property rights. Displaying remarkable scholarly as well as practical legal expertise, the various contributors to this volume illustrate the problems in and the potential of these policy areas. *Centralizing and*
