Rethinking Economics Starting from the Commons Valentina Rotondi, Paolo Santori, 2023-02-20 This book proposes a new approach to economics starting from the commons and based on the Economy of Francesco EoF a worldwide movement of young people who aim to change the current economic models and working towards a fair sustainable and inclusive economic system EoF was convened by Pope Francis and is inspired by the example of St Francis of Assisi featuring Franciscan economic roots and institutions as well as theories of the social sciences The authors raise and answer several important questions throughout the volume such as What if the economic courses taught in the universities across the globe focused their attention on the topics of the commons rather than on private goods What if social businesses rather than being considered as a hybrid form of businesses became the normal approach and ethical and green finance ruled over the standard financial sector Is it possible to move away from the primacy of the consumers to the preeminence of ethical
