**The New York Mets** Richard Grossinger,2007 No baseball team has captured America's imagination like the Mets Alternately the Lovable Losers and the Miracle Mets New York's other team offers fascinating fodder for writer Richard Grossinger in this thoughtful collection The New York Mets is a series of probing essays on the best and most interesting years of the team particularly 1969 1973 1986 and last year's abbreviated run A pivotal essay chronicles the lives of a professional athlete and a die hard fan to create a well argued deeply felt meditation on the ways in which franchise baseball has come to fail not only the fans but the players This centerpiece presents a poignant narrative of Mets pitcher Terry Leach and author Grossinger's own experiences playing and tracking the sport Taken together these powerful essays alternately take the poet's the alchemist's and the player's perspective to paint a composite portrait that brings all the stunning highs and dispiriting lows together to show the ways in which America's favorite pastime has changed Grossinger reflects on the salad days when teams were happily homegrown and laments the current money ball scenario some call baseball today

**Ideogram** Laszlo K. Géfin,2014-07-03 The ideogram changed the course of modern American poetry and Ideogram is the first history of this important poetic tradition In modern poetry the ideogram is an idea presented to the reader by means of the juxtaposition of concrete particulars usually without connective words or phrases The poem is therefore presented in precise images usually very tersely and free from conventional form and meter The idea of presenting a concept in this manner derives in part from Ernest Fenollosa's essay The Chinese Character as a Medium for Poetry the Chinese written character itself being a juxtaposition of pictographs to form a new meaning Ezra Pound's search for an alternative to traditional forms of verse composition resulted in his use of the ideogrammic method which Laszlo K. G. fin asserts became the major mode of presentation in twentieth century American poetry Two generations of avant garde experimental poets since Pound have turned to it for inspiration evolving their own methods from its principles G. fin begins by tracing the development of Pound's poetics from the pre Imagist stage through Imagism and Vorticism to the formulation of the ideogrammic method He then examines the Objectivist poetics of Louis Zukofsky Charles Reznikoff and George Oppen the contributions to the ideogrammic tradition of William Carlos Williams and the Projectivist theories of Charles Olson Robert Duncan and Robert Creeley He concludes with an exploration of Allen Ginsberg's theory of the ellipse and Gary Snyder's riprap method Throughout G. fin maintains that the ideogrammic mode is the literary representation of the twentieth century post logical even post humanist world view
